PAPERS AT DRUG STORES

Those Who Neglect to Leave Money
With Mayor May Subscribe—
Country Woman Gives \$10

The school children today were doing their share for the aid of the tornado victims of Newcastle. Contributions were being received in all of the school buildings, but early this afternoon it was not yet known what the sum would be.

Papers were placed at all of the drug stores today so that subscriptions for the local committee may be left there. It was believed by the local committee that many contemplated giving but either forgot or neglected to do it. They will be reminded by the little paper on the counter whenever they walk into a drug store that their names are not among those who have come to the aid of the distressed of Newcastle.

Mayor Bebout dispatched \$226 more to the finance committee in Newcastle today, making \$827.25 in all which has been sent from here thus far. Of course, the actual cash sent will not be equal to the total the fund shows here because \$200 raised at Carthage and many individual contributions were sent directly to Newcastle.

Three were reported today which were forwarded to Newcastle as soon as it was known relief would be needed and before a fund was started here. The employees of the I. & C. general offices here raised a contribution of ten dollars. This makes \$22.75 coming from the I. & C. organization, \$12.75 having been donated by the car barn men yesterday.

The churches of the city are in sympathy with the fund and will offer their members the chance to contribute Sunday. It is expected that the money raised in the churches will be sent through the local fund.

The largest country subscription came in today when a woman living near New Salem gave Mayor Bebout ten dollars. She asked that her name not be made public.

Although Rush county is doing well, there is ample need for the money at Newcastle. Red Cross

MINISTERS ARE IN ACCORD WITH FUND

Rushville Association Believes
Church Donations Should be
Sent Through Local Channels

TO ACCEPT MONEY SUNDAY

The Rushville Ministerial association is in hearty accord with the movement here to raise money for the people who suffered in the cyclone of last Sunday afternoon and has announced that all Rushville churches Sunday will give their members opportunity to contribute to the relief of the stricken people.

"It is the sentiment of the ministerial association," said Dr. D. Ira Lambert, secretary of the association, "that the Rush county contributions should all go through one source. We urge church members to contribute through the regular channels, but if they desire to do it in the name of their respective churches, they will be given opportunity Sunday."

The Rev. C. M. Yocum, president of the association, said this morning that he favored sending whatever money is donated at the churches Sunday through the local fund because it is much more satisfactory to have relief work organized and done under one head.

workers who have surveyed the situation are sure that \$100,000 will be none too small to meet the conditions. The latest word is that about \$35,000 has been raised so it will be seen that there is no reason to believe that money contributed now will not find plenty of chance to do good.

Every local person who has gone to Newcastle has come back with the word that newspaper descriptions have not been enlightening enough; they have not told the story as it really is because words are lacking. A large number of the people who have already contributed have done so because they have seen the wreckage and realize the need.

THEIR REQUEST IS REFUSED

Indicted Democrats Not to be Allowed to be Arraigned at Home

(By United Press.) Indianapolis, Ind., March 16.—Federal officials today refused the request of attorneys for the democrats under indictment on election fraud charges at Evansville to be arraigned in their home city instead of at Indianapolis. The request was prepared by attorneys for the men and presented to Judge Anderson in Federal court.

KILLS WIFE AND HIMSELF

Laporte Man Uses Hammer as Weapon and Then Sets House on Fire

(By United Press.) Laporte, Ind., March 16.—Amos Costello, 70, killed his wife with a hammer, set fire to their home and then killed himself by shooting, here today. The couple had been separated for some time and when Mrs. Costello came to see her husband in an effort to effect a reconciliation he killed her.

PATRIARCHAL DEGREE

MAY EFFECT CONSTANTINE

Russian Revolution Likely to be Felt in Greece

(By United Press.) Washington, March 16.—That the Russian revolution may be immediately followed by stronger pressure by the allies on Greece and perhaps mean the removal of King Constantine, dispatches received here today indicated.

Reports also said that the collapse of the Turkish Empire was eminent.

CREAMERY CASE IS SENT TO HANCOCK

Suit to Collect Note Given for Stock Tried Twice Here, Goes on Change of Venue

JURY DISAGREES EACH TIME

The case of the Creamery Package Manufacturing Company against Thomas E. McAllister, on a note, demanding \$150, which has been tried twice here, the jury disagreeing both times, was sent to Hancock county this morning by Judge Sparks when he granted a motion for a change of venue.

The note is alleged to have been given for stock in the defunct creamery and was never paid because it was claimed the promoters of the company did not carry out their part of the agreement. Both times the case was tried the jury failed to return a verdict. In all about twelve cases of a similar nature are pending in court.

Mrs. Nellie Morris, colored, has been granted a divorce from James Morris. The divorce was granted on Feb. 26 and was overlooked because the court docket was cleared of old cases in the middle of the term. Morris did not fight the case and the decree was entered upon payment of the costs, which Mrs. Morris did.

DEMOCRACY IS IN CONTROL OF RUSSIA

Czar Nicholas Abdicates, Empress is Detained and Socialists are Captured

ALL PRISONERS SET FREE

(By United Press.) Petrograd, March 16.—Democracy today controlled Russia. Czar Nicholas has abdicated; the Empress is being detained and socialists have been captured.

Fifteen assemblies of the Russian nobility adopted resolutions today declaring their support of the revolution. The minister of justice of the new provincial government has freed all prisoners.

Grand Duke Michael, commanding the army, has sent word to the duma that in agreement with the Russian chief-of-staff he had advised the czar to abdicate, such a measure being necessary to save Russia and bring the war to a successful end.

STATE TOURNAMENT OPENS

Bloomington, Martinsville, Rochester and Kokomo First Winners

(By United Press.) Bloomington, Ind., March 16.—1,500 persons crowded in the Indiana university gym here today for the annual state basketball tournament. Muncie and Linton were the first teams to take the floor, Muncie easily winning in a slow game, 31 to 8. Other scores follow: Bloomington, 23; Lafayette, 24. Martinsville, 27; Washington, 14. Rochester, 36; Wingate, 16. Kokomo, 19; South Bend, 11.

FARLEY TRIAL POSTPONED

He Goes to Jail When he is Unable to Give Bond Today

EFFECTIVENESS DEPENDS ON CROWD

Whether Proposed County Forum is Force Will be Determined by Attendance Tonight

ORGANIZATION AT 8 O'CLOCK

It is believed that the size and interest of the crowd which appears tonight for the meeting to organize the Rush county forum for the discussion of subjects to come before the constitutional convention will determine largely the effectiveness of such an organization in the county. The meeting will be held at eight o'clock in the court house assembly room and will be addressed by Ross F. Lockridge, secretary of the Citizens League of Indiana, who will assist in the organization of the forum. Mr. Lockridge will arrive here at 7:40 o'clock over the I. & C.

It is the purpose of the proposed county unit to stand sponsor for the intelligent discussion of questions which will come before the constitutional convention next January. The Citizens League of Indiana will provide speakers whenever desired by the forum to talk on subjects which will come before the convention. No dues will be charged members of the organization.

OLD TEACHER OF THIS COUNTY DIES

Samuel C. Longfellow, Age 67, Expires at Anderson of Apoplexy—Taught Thirty Years

FUNERAL AT RALEIGH SUNDAY

Samuel C. Longfellow, age sixty-seven years, a pioneer school teacher of this county, died very suddenly of apoplexy at Anderson, Ind., yesterday. Mr. Longfellow began teaching years ago while the late Prof. Moffett was county examiner and continued in that profession for more than thirty years.

In early manhood he suffered a fracture of his left arm which resulted in the formation of a false joint, crippling him for life. As a teacher he was eminently successful, well liked, courteous and agreeable, and although crippled was a workman on the farm.

His wife, Rosetta (Durham) Longfellow, died February 17, 1897, leaving five small children to his care, and through all the trials and hardships incident to helplessness, the members of the family were kept together and, all but one, Kate, survive their father and have families of their own.

CALLS CABINET TO CONSIDER STRIKE

Wilson Meets With Heads of Departments This Afternoon at 2:30 to Determine Course

FOUR MEDIATORS ARE NAMED

Secretaries Lane and Willis and Gompers to Confer With Two Factions

(By United Press.)

Washington, March 16.—Secretaries Lane and Wilson, President Willis of the Baltimore and Ohio railroad and Samuel Gompers have been designated to confer with the railroad managers and the brotherhoods on the strike situation.

Washington, March 16.—Faced by the gravest domestic situation which has threatened the country in many months, the president called his cabinet into session this afternoon at 2:30 to devise a course of action in the fight between the railroads and their employees.

The president's hands, it is admitted, are tied in so far as being able to adopt any drastic measure to ward off the strike.

Possibilities of an injunction against the strikers or the throwing of the railroads into the hands of receivers and the government operating the roads in this manner were discussed in official circles.

Announcement of the president's course is expected after the meeting.

The president is expected to make it clear to the people of the country his efforts to avert a strike.

If in event of all failure to compromise and the strike comes the president will take occasion to inform the country where he believes the blame rests for a situation of powerless possibilities whereby the train systems of the country are tied up in the face of a great international crisis.

PREPARING FOR A STRIKE

Indianapolis Swears in 600 Extra Patrolmen for Duty Tomorrow

(By United Press.)

Indianapolis, Ind., March 16.—Six hundred special patrolmen were being sworn in today by the Indianapolis police department to preserve order in case of a railroad strike tomorrow night. The expenses of the special police is being borne by the railway companies.

VIGOROUS ACTION EXPECTED

Secretary of War Prepares Statement on the Strike Situation

(By United Press.)

Washington, March 16.—The decision of the government to take a vigorous course of action in the strike situation met with favor on all sides. The secretary of war was preparing a statement for the people of the country. The course of action decided upon was outlined at a meeting of the defense council, excluding Secretary of Labor Wilson.

ORDERS GENERAL EMBARGO

Michigan Central Prohibits Freight Because of Strike Order

(By United Press.)

Detroit, Mich., March 16.—Officials of the Michigan Central here at noon today ordered a general embargo on all freight shipments effective immediately. General Superintendent Sherer transmitted the order to all division points.

SUMMER PRICES WILL BE HIGHER

Quotations on Coal Will Likely Not be as Low as in Former Years, Dealers Here Say

PRICES FIXED ON APRIL 1

Anthracite Quotations Generally Hold Steady but Soft Coal Always Varies During Year

There will likely be a summer coal price but it will not be as low as in former years and local dealers believe the price will be close to what is ordinarily paid for coal in winter months. The new prices for the year are fixed on April 1. The hard coal prices go into effect on this date and hold for most of the year, but soft coal prices always vary greatly from the set price.

Poconos lump coal was quoted here today at \$7 a ton. There are no quotations available for future delivery, but the dealers say summer prices will prevail this year as usual, except that the summer price will be higher. People who usually lay in their winter's supply of coal—and there promises to be more this year than ever before—will be forced to pay more for the product unless something unforeseen happens to the coal market.

Rushville people, who did not lay in any coal last summer and were forced to pay high prices all winter, resolved to buy their coal during the summer months and take advantage of the cheap price and escape a famine like this winter. Many will still do this but the price promises to be nowhere near the prices last summer. One dealer said today that the price would probably drop \$1 or \$1.50 a ton during the summer. This is about the usual winter price.

The Retail Coalman, a monthly publication, official organ of the International Council of Coal Merchants, says that instead of a reduction indications are that there will be an advance. The paper declares that the wonderful demand for fuel continues unabated.

The April price circular has not been issued, but the probabilities are there will be an increase of 25 cents a ton on the smaller sizes of anthracite, with other grades remaining the same.

This condition is brought about Continued on Page 5.

To Mr. Ultimate

Consumer

This is an important message to you.

When quality is lowered or prices raised you are expected to pay the bills.

But to a certain extent the remedy is in your hands. You do not have to accept an inferior brand of goods or to pay more than a fair market price—for your retailer carries advertised goods and these are "right" in quality and price. If they were not right, it would not pay continually to advertise them. Advertised goods are dependable. See that you get them—and thus protect yourself!

Knowledge is power. Keep posted as to what is being offered and as to what the prices are.

The advertising in this newspaper is at your service every day in the year. It is written to you and for you.

It contains the news that is of interest to your pocketbook.

It spreads the markets before you and brings the town's show-windows to your feet.

Read and profit—let some one else get the unadvertised inferior or overpriced goods and thus pay the penalty for not "keeping informed."

WOMEN GIVE OUT

Housework is hard enough when healthy. Every Rushville woman who is having backache, blue and nervous spells, dizzy headaches and kidney or bladder troubles, should be glad to heed this Rushville woman's experience:

Mrs. Joseph S. Endicott, 125 S. Harrison street, Rushville, says: "Sometimes I overdo at my housework and take cold and it is at just such occasions as this, that I have trouble with my back. Once the doctor pronounced it an attack of lumbago. My back became so lame that I was miserable and everything in the way of work wore me out. When stooping, sharp catches seized me across the small of my back. Doan's Kidney Pills, which I got at Pitman & Wilson Drug Store never failed to cure me of these spells."

Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Endicott uses. Foster-Milburn Co., Props, Buffalo, N. Y. —(Adv.)

CONSIDER ALL-DAY PICNIC

Modern Woodmen May Hold "Open Air" Class Adoption July 4.

At a meeting of the Modern Woodmen lodge next Thursday night plans for holding an all-day picnic and "open air" class adoption on July 4 will be discussed and probably something definite done. An interesting meeting of the lodge was held last night when one candidate was taken into the order. The guests of the lodge were several Carthage men who formerly held membership in the Carthage camp, but who recently transferred their membership here. The camp voted to give \$5 to the Newcastle relief fund. The following from Carthage were here last night: Ed Adkins, Byron D. Ball, George Hinshaw, William Hinshaw, Rowland H. Hill, Rice Hill and Ed Miner.

SCHOOLS WILL GIVE SHOW

Colored Slides of Mexico and Moving Picture to be Shown

A big show for five cents is being advertised for Monday night at the Graham Annex auditorium to be given under the auspices of the schools of the city. Fifty colored slides of Mexico will be shown as a starter. The slides show the history and costumes of the country and pupils from the schools will lecture as the slides are shown. The program will be concluded with a three reel Thomas Jefferson Morgan film. This is a vocational film and should prove a benefit to the pupils and parents alike. The program will last about one and one-half hours and will start at 7:30 o'clock.

A CITY OF SILENCE.

Conditions That Make Santa Cruz de la Sierra Noiseless.

Amid gusts of Scotch mist and under heavy skies we drifted inertly into a sand paved, silent, tropical city street, past rows of languid stares, and on the last afternoon of the year, with Cochabamba (a town in the center of Bolivia) 335 miles behind us, we sat down dripping and sunburned in the central plaza of Santa Cruz de la Sierra.

The capital of all the vast tropical department of eastern Bolivia owes its fame largely to its isolation. Far away one hears much of it; once there, he finds little. Like the eminent men of many secluded corners of South America, it is important only through the exceeding unimportance of its neighbors.

It is a city of silence. Not only its bare feet, but its primitive ox carts make not a sound in the sand streets. There is no industry to add its strident voice, and every street fades away at each end into the trackless, whispering, jungled montana.

In this rainy season, which begins in earnest with the new year and lasts through April, it had many muddy pools and ponds, along the edges of some of which the streets crawled by

on long heaps of the skulls of cattle, bleached snow white by the sun.

The larger ponds were almost lakes and carried the mind back to Kandy, Ceylon. Frequently the streets were flooded deep for an hour or more until the thirsty sand had drunk up the tropical deluge. For these eventualities the town has a system of its own. At every street corner four rows of weather blackened piles protrude a foot or more above the sand, and along these stepping stones the shod minority passes from one roofed sidewalk to another.

The houses invariably consist of a large room, by day opening directly on the porch sidewalk, though the best of them are rather bare in appearance, despite a small forest of frail cane chairs, black in color, as the best provided Cruceno family is not rich by our standards.—Henry A. Franck, in Century Magazine.

RAGAMUFFIN ABYSSINIA.

Its Despotie Rulers Descend From Menelik, Son of Solomon.

Abyssinia is the Ethiopia of the Bible, and it is almost unchanged since the birth of civilization. The line of despots that rule Abyssinia today are the lineal descendants of Menelik, the son of the queen of Sheba and King Solomon. They seem to have inherited very little of the well known wisdom of their famous sire, however, for Abyssinia is today the unregenerate ragamuffin among nations—and also the picturesque remnant of the world's oldest civilization.

For Abyssinia, surrounded by tropical wilderness and without a seaport, is a country apart from the modern world—a country of turbaned and sandaled men, of veiled women wearing silver anklets, of mighty hunters who still take their game with leopards and hawks as in Biblical days; a land where gentlemen live by plunder and monks by alms and a man has as many wives as he can buy or steal.

Abyssinia is a fortress of antiquity, defying the world by its sheer physical impenetrability. But a few degrees from the equator, it is a great mass of igneous mountain ranges flung down upon a tropical plain. Lower Abyssinia is burning desert and fever ridden jungle. The interior is healthy upland cut by great gorges, many of which are wholly impassable. In the midst of this wilderness is Lake Tsana, forty-seven miles long and more than 5,000 feet above sea level. It is the source of the Blue Nile.—Exchange.

Electricity In the White House.

The White House is said to have the most intricate and complete electrical system installed in any building in this country. There are in the mansion nearly 170 miles of wires providing for 3,000 incandescent lights, a bell system, a private telephone system for the president and his family exclusively, burglar alarms, fire alarms and a power system which supplies current to ventilating fans and an automatic elevator.

A Challenge to the Fastidious and Calculating Buyer

TO THE select group of discriminating individuals who have hitherto been unable to satisfy their exacting demand for a motor car of utmost smoothness and ability in performance, and refinement in style and finish, except in cars of very high cost, we now call attention to the new Oldsmobile, Model 45, with the invitation to subject this car to the most careful and elaborate scrutiny.

In every particular, we are confident that the car will measure up to their highest expectations and most critical requirements.

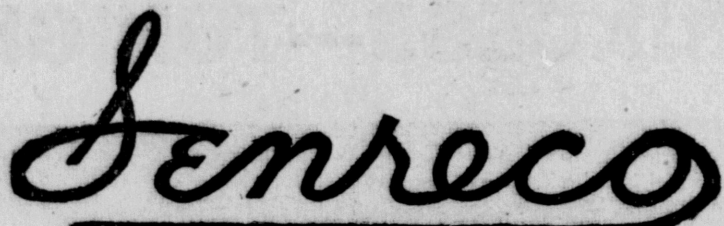

The car is built in four body styles at the following prices:—\$1367 for the seven-passenger, and \$1295 for the five-passenger, club roadster and convertible roadster models, f. o. b. Lansing.

The seven-passenger is now on display at our show-room. Call or write today for a demonstration.

That Pesky Fly

Sanitarians teach us that flies kill more human beings than war. That is a broad statement when we consider that ten million persons have lost their lives in the European war. When we dwell on the great war of today, words fail us, yet statistics disclose that disease transmitted by the common little old pesky housefly kills more than great armies.

Once upon a time, when the campaign against the fly was in its infancy, the slogan was swat the fly. Of course, swatting the fly is a fine maxim that should hang in every home, but latter day methods have added another slogan; in is starve the fly.

Starving the flying is preparing for his coming. We hear a lot about preparedness against war, but we are apt to overlook the vital necessity of preparing against the housefly, which just now is arranging his invading armies ready to move over the United States at the first sign of warm weather.

To make it an entirely personal question, are you prepared for the fly? There is an old adage that "an ounce of prevention is worth a pound of cure." It never was so applicable as today. Here are some of the ways, according to an authority, to guard against the fly by starving him:

Garbage—This is food waste only. Always keep it in a metal can with a tight cover. Do not let flies get into it.

Rubbish—This includes ashes, bottles, tin cans, junk and house sweepings. Always keep it in boxes or barrels of average size.

Waste Paper—This should be kept from rubbish. Always keep it dry. Put it in burlap bags or tie it up in bundles. If kept in the basement it should never be near the furnace nor under the stairs.

Vacant Lots—The owners of vacant lots are responsible for keeping them clean. Do not throw your rubbish or garbage in these lots. It is not good citizenship and is a menace to your health. Try to get them cleaned up and see if you can put in a garden.

It is presumed that the striking trainmen will now be placed in the

Died of Premature Old Age!

(BY V. M. PIERCE, M. D.)

How many times we hear of comparatively young persons passing away when they should have lived to be 70 or 80 years of age. This fatal work is usually attributed to the kidneys, as, when the kidneys degenerate, it causes auto-intoxication. The more injurious the poisons passing thru the kidneys, the quicker will those noble organs be degenerated, and the sooner they decay.

It is thus the wisest policy, to prevent premature old age and promote long life to lighten the work of the kidneys. This can be done by drinking plenty of pure water all day long, and occasionally taking a little Anuric (double strength, before meals. This can be obtained at almost any drug store. Anuric will overcome such conditions as rheumatism, dropsical swellings, cold extremities, scalding and burning urine and sleeplessness due to constant arising from bed at night.

WELL-KNOWN NEW ALBANY WOMAN SPEAKS.

New Albany, Ind.—"I suffered for a number of years from trouble from which only women suffer. I tried all kinds of medicines and several doctors, but they did me no good. I was in bed at the time. I guess I would have been in my grave now if I had not tried Dr. Pierce's wonderful medicine, Favorite Prescription and Golden Medical Discovery. I took about seven bottles of each and now am well and able to do my household work, can even wash and iron. I certainly cannot say too much for these great medicines, and am glad of the opportunity of expressing my appreciation of them."—Mrs. JULIA ROEHLE, 44 W. 11th St.

class with Senator Stone, Senator LaFollette and ten other United States senators who by filibustering defeated the armed neutrality bill before the senate rules were amended to prevent such tactics.

This must be a case of modern brotherly love, Grand Duke Michael assuming the throne of Czar Nicholas after the latter is forced to abdicate.

EARLY HATCHING FOR SIZE.

Contrary to general belief and practice, chicks do not grow or thrive as well during the warm months or hot summer days as they do earlier in the spring. Experienced poultrymen realize this fact. The average farmer, however, does not make an effort to hatch early so that the chicks will have the advantage of a longer and more favorable growing season. Early hatching not only insures more rapid gains in the growth of chicks but has a favorable influence on the size of the individuals of the flock. Late hatched chicks rarely, if ever attain the size of those hatched early. Early hatching likewise influences early maturity and consequently early egg production.

Given the same food, care and attention, chicks hatched the first of March will weigh more when they are four months old than those hatched a month later, say the poultry specialists of the U. S. Department of Agriculture. This likewise holds true with chicks hatched the first of April as compared with those hatched May first. This is due to the fact that the rate of growth of a chick is greater during the first four weeks of its life than at any other time. Consequently, the early hatched chick, having the advantage of a more favorable growing season, makes greater gains during the first four weeks of its life than the late hatched chick. During the early spring months when the temperature is not so varied the growth of chicks is more uniform and constant than it is during the summer.

Millions of chicks die every year as a result of being infested with lice which, under average farm conditions, are oftentimes difficult to control. Hen-hatched chicks are not as subject to lice in the early spring as they are during the warmer months when lice are more prevalent. If for no other reason chicks should be hatched early so their growth will not be interrupted by the presence of lice.

Many farmers realize considerable money each spring from the sale of broilers, the price of which is usually governed by their size when sold and the time marketed. Thus it would seem that in order to increase the amount of money from the sale of broilers and fryers early hatching would be employed so as to have a marketable-sized fowl early in the spring when prices are highest.

"Old Timers" Show Flash of Form; Defeat Varsity

Faculty Wins Basketball Game by Unknown Score With Aid of Friendly Step Ladder

SPARKS PRAISES VARSITY

The Faculty defeated the Varsity last night, but no one knows the score. The "old timers" put up a wonderful exhibition and with Earl Marlatt on a step ladder close to the basket, goals were registered with startling regularity.

The Varsity claims the referee was against them and accuses Judge Sparks of helping in their defeat. On free throws three shots were taken and towards the end of the game the Faculty threw the ball into a large waste basket watched over by Judge Sparks near the sideline.

The Faculty displayed wonderful form although handicapped by the absence of their two best players, Parke who was declared ineligible because he has only one study and Cullipher who could not find a pair of shoes large enough. Prof. Stewart and Prof. Masters were the star performers for the Faculty. Their shots from under the basket, the ball going up and through the

net instead of coming down through it were remarkable.

The game lasted about fifteen minutes and furnished more good laughs than anything seen on the local floor in years. The farce ended when Prof. Stewart and Judge Sparks "threw a few boquets" at the team. Judge Sparks praised the team for the year's work and presented the silver cup won at the invitational tournament here a few weeks ago. The cup was accepted on behalf of the team by Ralph Martin, captain of the five. Martin responded with a few words and declared he was sorry he could not play next year as he liked the game.

Judge Sparks praised the work of Prof. Masters, who has acted as coach of the team. The success and spirit of the team was due to Coach Masters and he was given due credit by the speakers. Prof. Masters was called upon and in a few words told the crowd that he was thankful for the praise and only hoped for better things next year. He praised the work of the boys during the past season.

After the speech-making ceremonies, the Varsity clashed with a picked team from the high school.

Sigh For Stars of Yesteryear.

Think 'way back now. Dust the cobwebs from the recesses of your brain and repeat to yourself the names of the first screen stars whose pictures you followed and whose acquaintance you sought. It is a pretty safe venture on my part that only one or two are featured today. For some of them were very, very young when success was proclaimed theirs.

You of the American public are fickle. What of the hero who seemed to stand for such noble things three years ago? What of the heroine who was your ideal—of whom you dreamed and whose portrait decorated your dressing-table? Does it not matter to you that these, your first love as far as motion picture stars went, are almost forgotten?

These thoughts came to me only yesterday when I was cleaning out an old trunk in which I have kept a file of motion picture magazines. As I ran through the picture gallery and then the stories and interviews, one old favorite after another greeted

me. In a number of cases the gowns and hats the women wore looked rather funny and I wondered if I, too, at my screen debut a couple of years ago had appeared like that.

I know that some of the old stars are still enjoying the tag end of their popular following, but there are many others who perhaps have retired altogether from the pictures. Yet these magazines were no more than three years old.

And what's this all about, you ask? How can you help it if the motion picture star does not remain a star forever? You can't. And there's just one consolation that such is the case, for it gives the joy of being loved by the great public to more people than it would if things were otherwise.

But friends—you can give the star something to help after he or she is forgotten. The letters which you write your favorite—I don't mean the silly, foolish letters but the other kind—mean much in their lives. You will perhaps never guess just how much unless you too should reach stardom some day.

Have you anything to say in your defense before sentence is pronounced upon you?" asked the Judge.

"Only one thing," said the convicted burglar. "The only thing I have objected to in this trial was being identified by a man that kept his head under the bedclothes the whole time I was in the room. That is not right at all."—New York Times.

HOOSIER BRIEFS.

Gary—The City of Gary covers 19,573 acres of ground, according to a map recently completed by the city engineer's office.

Terre Haute—Wooden shoes have made their appearance in Terre Haute on account of the high price of leather. The soles and heels are made of cottonwood and are an inch thick.

Muncie—Ten-cent stores in Muncie no longer are ten-cent stores, following the raise in price of many articles formerly sold for a dime to fifteen cents.

TRY THIS TO BANISH ALL RHEUMATIC PAINS

People who have been tormented for years—yes, even so crippled that they were unable to help themselves—have been brought back to robust health through the mighty power of Rheuma. Rheuma acts with speed; it brings in a few days the relief you have prayed for. It antagonizes the poisons that cause agony and pain in the joints and muscles and quickly the torturing soreness completely disappears. It is a harmless remedy, but sure and certain, because it is one discovery that has forced rheumatism and sciatica to yield and disappear. If you want relief, swift, gratifying relief, get a 50-cent bottle of Rheuma from any druggist, and take one-half teaspoonful once a day. Genuine Rheuma, with guarantee of a cure or money refunded, is sold by JOHNSON'S DRUG STORE.

Amusements

The Lyric will show the five act feature "The Bruiser" for the program tonight. William Russell is featured and it is said to be a thrilling picture. It is said to be an exceptional picture showing many big scenes. The usual program is offered for Saturday.

The Gem will show the feature picture "The Welsh Singer" for the program tonight. It is a picturization of Allen Raine's widely read novel of the same name. Romantic Wales, seething London and historic Rome furnish the settings. The Welsh scenes in particular are unusually true to life, most of them having been enacted on the exact spots mentioned in the novel. Florence Turner, who is featured is supported by Henry Edwards, Campbell Galloway and Maclean Cherry.

The Princess offers the feature picture "Temptation" for the program tonight. It is a Lasky production and features Geraldine Farrar, the famous star of the Metropolitan Opera company. The story of the play concerns the trial and hardships endured by a young American girl to obtain a hearing before grand opera audiences. A glimpse back of the scenes is shown. In addition to this feature a reel of the Burton Holmes travel pictures will be shown.

by unprecedented industrial activity, which keeps up a steady demand for all grades as fast as it can be mined, thus permitting no surplus stocks to accumulate.

"It seems certain we shall see a continuation of firm prices and brisk demand for a year to come," says the Coalman. "There is only one thing for the retail coal merchant to do, and that is to be extremely cautious about quoting any prices to his customers until he is absolutely sure at what price he will be able to buy his supply."

FAIL WITH SALOONS NOW TRIES GROCERIES

Buenos Aires, March 16.—Having tried and failed to close the saloons on Sunday, the Buenos Aires city government is making a similar experiment with the grocery stores. The idea is to give the clerks a day's rest a week. It is not a religious movement. Most grocery stores really do keep their front entrances shut which the saloons never did, but they do a tremendous side door trade.

"TIZ" FOR SORE, TIRED FEET—AH!

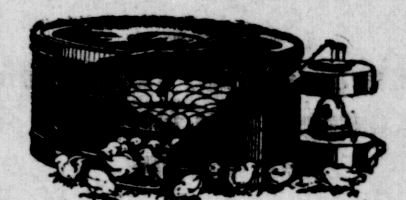

"Tiz" is grand for aching, swollen tender, calloused feet or corns.

Ah! what relief. No more tired feet; no more burning feet; no more swollen, aching, tender, sweaty feet. No more soreness in corns, callouses, bunions.

No matter what ails your feet or what under the sun you've tried without getting relief, just use "Tiz." "Tiz" is the only remedy that draws out all the poisonous exudations which puff up the feet. "Tiz" cures your foot trouble so you'll never limp or draw up your face in pain. Your shoes won't seem tight and your feet will never, never hurt or get sore and swollen. Think of it, no more foot misery, no more agony from corns, callouses or bunions.

Get a 25-cent box at any drug store or department store and get instant relief. Wear smaller shoes. Just once try "Tiz." Get a whole year's foot comfort for only 25 cents. Think of it.

FOUR MEMBERS OF FAMILY GET AID

All Start Taking Tanlac When Charles Fluke is Benefited Greatly

South Bend, Ind., March 15—"The four members of my family easily notice the great improvement in my condition I have gained recently and I am positive that the only thing that could bring such a remarkable change in me is Tanlac," Charles Fluke, of 316 North Erie street, this city, a machinist at the South Bend Lathe Works, said on January 24.

"My system was all run down, my general health being very poor," Mr. Fluke continued. "My stomach was in bad shape, indigestion bothering me. My appetite was very poor and what little food I did eat was not digested properly. I would always feel and distressed and miserable after eating. I'd get up in mornings feeling bad and never felt a bit like working."

"I've taken three bottles of Tanlac now and I feel just great. I sleep soundly at night now and get out of bed in mornings ready for a hearty breakfast and then work. And my work is a pleasure, too. Yes, the four members of my family have easily seen the great change Tanlac has brought about in me and now, they have started taking Tanlac."

"Tanlac is undoubtedly the best medicine I ever tried in my life and I want to recommend it." Tanlac, the Master Medicine, is especially beneficial for stomach, liver and kidney trouble, catarrhal complaints, nervousness, loss of appetite and the like and is fine for building up the system and relieving the after effects of colds, la grippe, pneumonia and the like.

Tanlac is now being specially introduced and explained in Rushville at F. E. Wolcott's drug store; in Arlington at Mrs. L. T. Davis's; in Carthage at J. H. McCarthy and Sons and in Milroy at Barton and Sheppards.—(Adv.)

The eight members of the Pirate Bridge Club spent a pleasant afternoon as the guests of Mrs. Harrie Jones at her home in North Harrison street yesterday afternoon. The afternoon was spent in interesting games of Pirate Bridge. For the service of the delicious luncheon, the guests were seated at the dining table in the center of which was a fragrant bouquet of hyacinths. Mrs. Donald Smith will entertain the club members in two weeks.

Last evening, the home of Mr. and Mrs. Claude Smith was the scene for a merry company when a turtle supper was given. The service of the elegant supper was followed by a delightful social evening, playing "500" and engaging in other games. Guests for the affair were Mr. and Mrs. Scott Hosier and children, Scott Jr., and Mary, Mr. and Mrs. Russel Bearinger and son, Myron, William Ruhlman, Miss Margaret Rittenmeyer, Mrs. Nettie Orme, and Errol J. Stoops.

Mrs. Bruce Beck entertained with a pretty little affair for the members of the D. T. Club at her home in North Jackson street yesterday afternoon. Her guests included five members of the club and two invited guests, Mrs. Bennett of Chicago, the guest of Mrs. Knowles Casady, and Mrs. Gibson Ross of this city. Following the social afternoon, the hostess served a dainty luncheon in which St. Patrick's favors were in evidence. Mrs. Theodore Abercrombie Jr., is to have the next club meeting.

Mr. and Mrs. Alva Newhouse were pleasantly surprised Tuesday evening at their country home north of the city by a number of friends. They brought with them a pitch-in supper and after its service, a gay evening was enjoyed. The guests were Mr. and Mrs. Jesse Gray, Mr. and Mrs. R. W. Alexander, Mr. and Mrs. L. A. The interesting guests for the week-end are Wallace Ryall of Wooster, Ohio, Miss Jean Taylor and Miss Bertha Allen, both of Glendale. Other guests at the dinner this evening are Miss Edith Wilk, Miss Erema Wilk, Posey Denning, and Miller Hamilton of South Bend.

The monthly meeting of the D. A. R. was held at the home of Mrs. A. L. Gary in North Morgan street yesterday afternoon when about 15 members were present. The feature of the program was a very interesting paper by Mrs. Lou Havens on "Early American Colleges" in which some facts concerning establishment and customs of these schools were told in a good way. Mrs. Edward Strong of Indianapolis, a member of the chapter, was present at the meeting. Light refreshments were served by the hostesses who were Mrs. Gary, Miss Emma Casady, Mrs. Morton Gray and Mrs. Mary Cetton. The next meeting will be at the home of Miss Alice Norris, when the general subject of the program will be on "The Indian."

An Announcement

Mrs. L. J. Weeks has returned from Chicago, where she spent two weeks in the careful study of the CORSET, its construction and its mission. She has brought with her diplomas from both **The Gossard and Kabo Schools**

What These Diplomas Mean to the Women of Rush County

First They mean that the women of Rush County may receive, free of charge, authoritative advice from our graduate corsetiere.

Second Our corsetiere is not only specially trained in all branches of corset fitting, but is able to give authentic style information regarding all branches of women's apparel.

Third Being expertly trained our corsetiere is able to discuss with the women of Rush County the new Spring fashions and the vital relation of the new Gossard and Kabo models bear to the successful attainment of the new silhouette.

Fourth She will serve you in the corset department; is competent to make medical fittings and will give most careful attention to any special needs which a physician might prescribe.

Fifth These diplomas mean that the women of Rush county may be assured they can get the correct corsets for their individual type from the standpoint of style, comfort and wearing service.

Let a Graduate Corsetiere Serve You. You Will Notice the Difference at Once

One of the most novel programs of the year for the Ladies Musicale will be given Monday afternoon at the regular meeting in the assembly room of the court house. "A Life Story in Tones" will be enacted. The paper to be read by Mrs. Lon Kennedy will be represented with musical selections. The theme of the paper carries a baby through every phase of life until he becomes a man and later dies. The types of music suggestive of the scenes of his life are to be sung and played. Illustrating the paper are the following numbers:

Mr. and Mrs. Fred Cochran entertained the members of the Harmony Club at their home in West Second street last evening. The twelve club members spent the evening in playing "500" and during the service of the supper, clever St. Patrick's favors were given. The ice and other appointments of the refreshments were in green. The next meeting of the club will be with Mr. and Mrs. Ed Beer.

A One-Sided Argument

A penitent-looking man was on trial for vagrancy and disturbance of the peace. The judge seemed inclined to be lenient with him.

"What was the prisoner doing when you arrested him?" he said to the policeman.

"He was having a very heated argument with a cab-driver, your Honor."

"But that doesn't prove that he was the worse for liquor," the judge said. "Many sober people have arguments with cab-drivers."

"So they do, your Honor," said the policeman, "but in this case there was no cab-driver."—New York Times.

Where You Always Buy For Less

IF KIDNEYS AND BLADDER BOTHER

Take a glass of Salts to flush out your kidneys and neutralize irritating acids.

Kidney and Bladder weakness result from uric acid, says a noted authority. The kidneys filter this acid from the blood and pass it on to the bladder, where it often remains to irritate and inflame, causing a burning, scalding sensation, or setting up an irritation at the neck of the bladder, obliging you to seek relief two or three times during the night. The sufferer is in constant dread, the water passes sometimes with a scalding sensation and is very profuse; again, there is difficulty in voiding it.

Bladder weakness, most folks call it, because they can't control urination. While it is extremely annoying and sometimes very painful, this is really one of the most simple ailments to overcome. Get about four ounces of Jad Salts from your pharmacist and take a table-spoonful in a glass of water before breakfast, continue this for two or three days. This will neutralize the acids in the urine so it no longer is a source of irritation to the bladder and urinary organs which then act normally again.

Jad Salts is inexpensive, harmless, and is made from the acid of grapes and lemon juice, combined with lithia, and is used by thousands of folks who are subject to urinary disorders caused by uric acid irritation. Jad Salts is splendid for kidneys and causes no bad effects whatever.

Here you have a pleasant, effervescent lithia-water drink, which quickly relieves bladder trouble.

Farmers Provide Wagons for Haul-

Newcastle, Ind., March 16—Under the direct supervision of Jack Mueller, chairman of the local relief committee and J. J. O'Conner, of Chicago, director of the central division of the Red Cross Society of America, the relief work in Newcastle is being handled very capably and all the sufferers from Sunday's havoc-wrecking tornado are being cared for.

The efficient methods and organization of the Red Cross, coupled with the excellent work being done by all the people of Newcastle, is making the situation of relieving tornado sufferers easier today than it has been in the past two days, during which, for at least a part of the time, activity in the relief work was necessarily suspended to allow the completion of the relief organizations.

The main problem confronting the local committees today is that of raising the necessary money. The finance committee requests \$25,000, which Newcastle must give to hold up her end of the \$100,000 subscription for the sufferers of the city.

A committee which will be announced later, will make a thorough canvass of the city to raise money for the sufferers. The people are warned not to make any payment to any one not named in the committee and only after proper credentials are shown.

The work of cleaning up the debris over the city was commenced in earnest this morning. Farmers flocked into the city with their teams and wagons and compassionate farmers' wives came along, bringing baskets heaping with food. The women turned their provisions over to the commissary and the men took their teams to the ruined sections of the city and there, with a small army of men already on the scene, began the work of hauling away the debris.

The women of the city have shown the true brave spirit common to the people of Newcastle. Houses, partially wrecked, or with a few rooms ready for occupancy, have been put in shape by the women who have never faltered in these trying times of distress and are doing their utmost to make the ruins and wrecks of what formerly were fine houses, comfortable and weather proof to furnish shelter for the unfortunate victims of the tornado.

Carpenters and every man who can drive a nail or handle a saw have been at work for the past two days on rebuilding, most of it temporary, of course, on the houses suffering lesser damage, in order that the residents would not have to move out in case of a severe cold spell or another hard rain.

Newcastle, taking the situation in hand, is going ahead calmly, without excitement or frustration, and is preparing to come out of the throes of despair with a more prosperous and more beautiful city even than graced this part of Henry county before the storm, if such an improvement is possible.

J. J. O'Conner of Chicago, director of the central division of the Red Cross society of America, is the chief assistant of John W. Mueller of this city, who is chairman of the

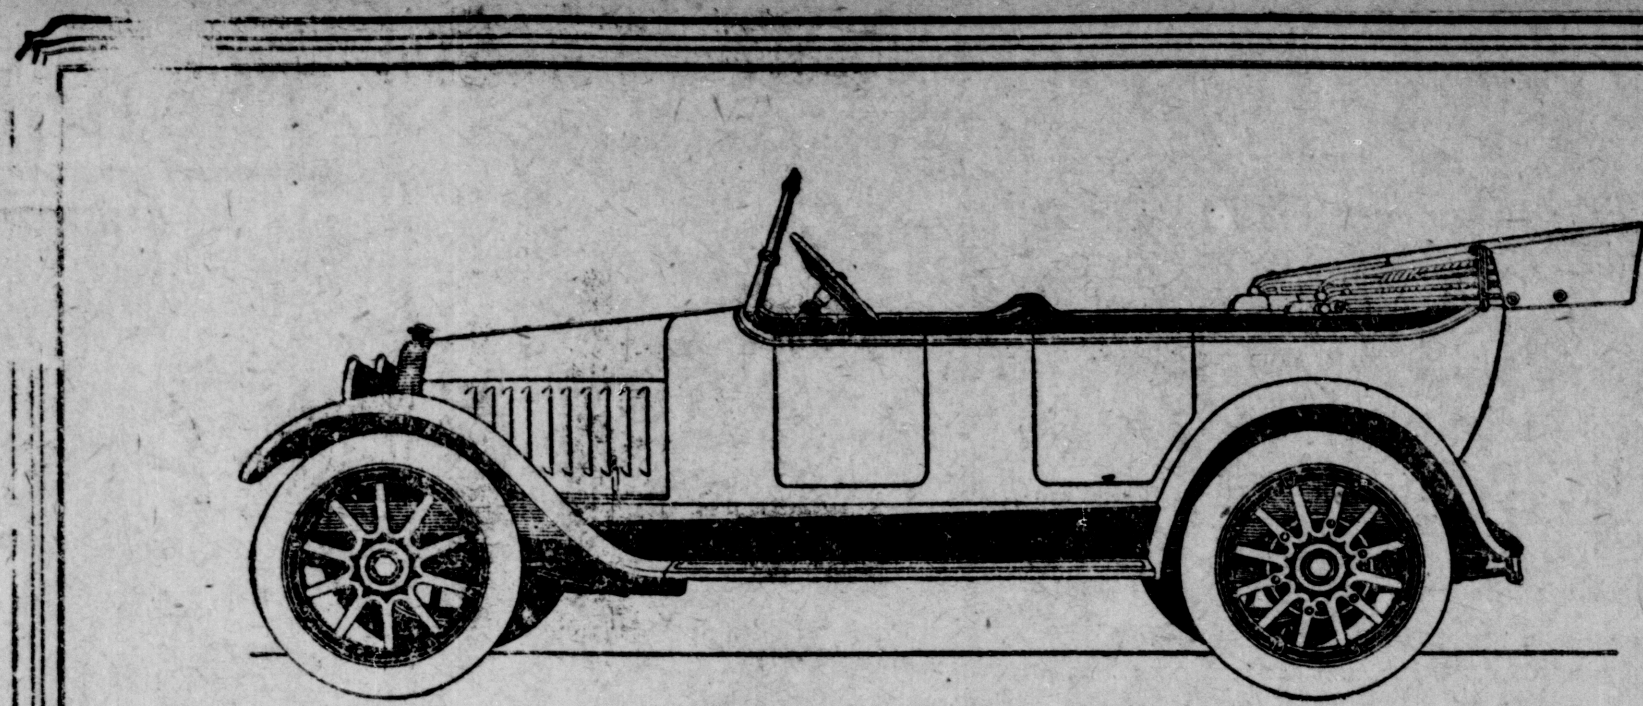

HEAD STUFFED FROM CATARRH OR A COLD

Says Cream Applied in Nostrils
Opens Air Passages Right Up.

Instant relief—no waiting! Your clogged nostrils open right up; the air passages of your head clear and you can breathe freely. No more hawking, sniffling, blowing, headache, dizziness. No struggling for breath at night; your cold or catarrh disappears.

Get a small bottle of Ely's Cream Balm from your druggist now. Apply a little of this fragrant, antiseptic, healing cream in your nostrils. It penetrates through every air passage of the head, soothes the inflamed or swollen mucous membrane and relief comes instantly.

It's just fine. Don't stay stuffed up with a cold or catarrh.

Choose a Chalmers as You Do a Watch

Compare two watches. They may look exactly alike. They may be equal in diameter and thickness. They may weigh the same. Perhaps your eye can't distinguish any difference between the gold in the two. One may seem to keep as good time as the other.

Big Differences There

Yet there may be a vast difference. One may be a Tiffany Swiss and the other a non-descript. If you trust only to an off hand examination you may make a bad mistake in your choice.

True of Automobiles

The same is true of automobiles. Some other car may closely resemble a Chalmers. It may weigh about the same. Have about the same wheel base. The paint may look more or less alike—at first glance.

Yet there may be a vast difference. Differences you can discover only by the closest scrutiny and comparison.

Go Deep

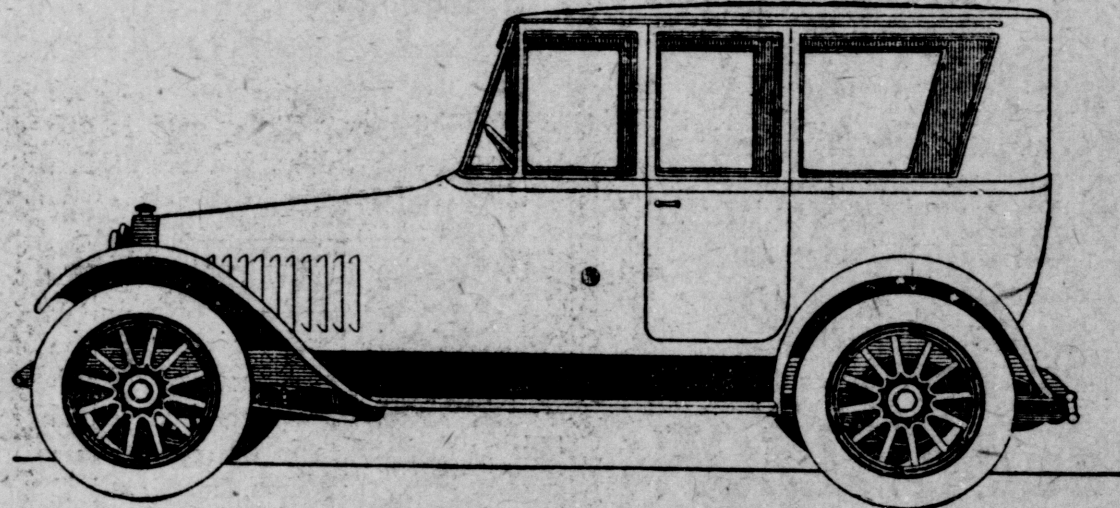

If you are to get the correct idea of the Chalmers, you must go beneath the surface. There the big, important differences lie. Differences in materials. Differences in methods of building. Differences in quality of workmanship.

To look only at the exterior of the Chalmers you wouldn't discover that the gears and shafts of the transmission are of crucible nickel steel, case hardened and carefully heat treated.

All of the above means quality—the kind of quality you need in the car you buy, and the kind of quality you GET in the Chalmers.

relief committee. Mr. O'Conner, while the Red Cross has not taken over the situation here yet, believing in the ability of the local men to handle the conditions after a system is once established, has brought all the methods, knowledge and generalship of the Red Cross into the city to be placed at the command of the local people to aid in the relief work.

ACTORS TAKE PART

(By United Press.)

Indianapolis, Ind., March 16—Actors appearing in Indianapolis theaters presented a benefit performance in English's theater this afternoon, the proceeds to be used for the tornado sufferers at Newcastle. Managers of all theaters in the city agreed to the performance and leading theatrical men participated.

14 Cent Corn

Fred Suhre of Columbus grew 530 bushels of shelled corn on five acres, or an average of 106 bushels per acre, at a cost of only 14 cents a bushel, and won the 1916 Corn Championship of Indiana.

SUHRE FARM RESULTS, 1916

Corn fertilized with Swift's Fertilizer, containing ammonia, phosphoric acid and potash, produced an increase per acre over the unfertilized of 19 bu.

Corn fertilized with only acid phosphate produced an increase per acre over the unfertilized of 9 bu.

Additional yield per acre from ammonia 10 bu.

Norris McHenry, 1914 State Champion Corn Grower of Indiana, had the following results on two five-acre plots:

Where Swift's Fertilizer was used, the average yield per acre was 112.1 bu.

Where competitors' fertilizer was used, the average yield per acre was 93.1 bu.

Additional average yield per acre where Swift's Fertilizer was used 19 bu.

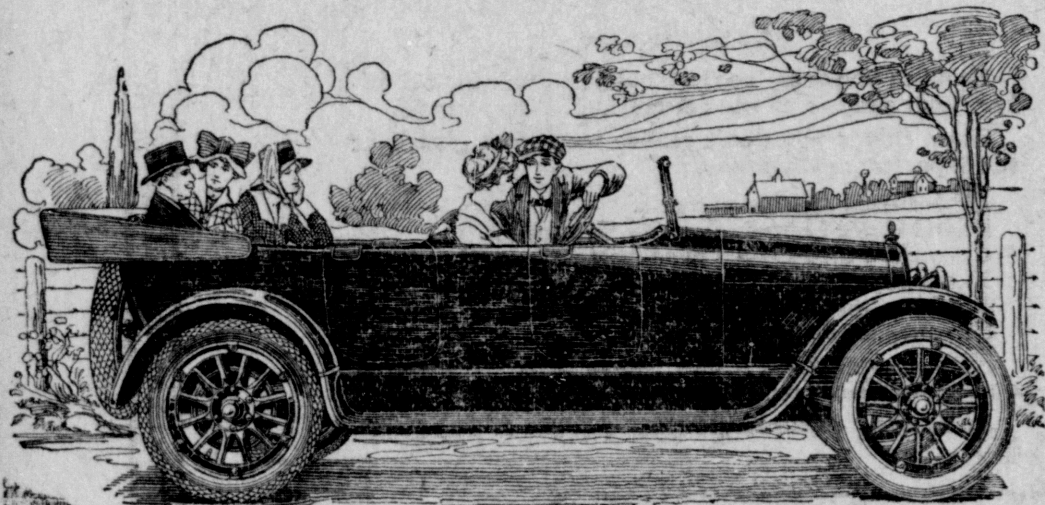

The results from the Suhre and McHenry farms prove that Swift's Fertilizers are the best, and that Swift's Fertilizer containing ammonia is the most profitable.

The Anker-Holth Cream Separator

Is the only Separator on the market that has a SELF-BALANCING BOWL and has no lead or soft solder on the inside in order to perfect a BALANCE, which you will find in other makes of Separators. The bowl is guaranteed to stay in balance the life of the machine. The Bowl is Self-draining which makes it non-freezing in cold weather. It is easy to turn and easy to clean, and can be washed in one-half the time you can wash any other Separator. It has no oil holes or feed cups. It is oiled by an up-to-date oil system; you only put oil in every 60 or 90 days. The ANKER HOLTH will skim closer than any other Separator on the market today, which has been proven by tests with other leading Separators and tested by the Babcock cream tester. It is the only Separator with a dirt chamber that removes all impurities from the whole milk before it enters the discs for cream separation.

Do not be deceived by false statements by people who claim that the cream and milk will remix. I am not hunting for tests, but I am willing to test with any other Separator made in the world today, and let the Babcock tester be the Judge.

The ANKER HOLTH is a high-grade Separator at a Medium Price.

College

College is an institution of learning. An institution of learning what? O, almost anything.

Ball of all kinds, for instance: High, foot, base, basket, hand and fancy dress.

College is where some youths go to study Broadway. These young men return home at the end of four or five years, if at all, with the degree of D. D. D., or Doctor of Drinks & Debts. They qualify by spending dad's money in large quantities, their days in bed and their evenings in high collars and low comedy. College for them is one grand round of tools and tutors.

Occasionally some obsolete person goes to college to get an education.

PEPSINCO

ON EVERYONE'S TONGUE. HUNDREDS IN THIS CITY NOT ONLY SAY PEPSINCO, BUT TAKE PEPSINCO AFTER EVERY MEAL. THAT'S THE REASON THEY HAVE A GOOD STOMACH.

Pepsinco—say it yourself that it may be easy to remember, easy to pronounce, easy to recall. Pepsinco demonstrates and identifies the strongest, most vital, most valuable remedy for indigestion and dyspepsia in the market. Every time you say Pepsinco to your druggist you are asking him for relief for your dyspepsia.

Thousands upon thousands of persons are taking Pepsinco and are having perfect health. Many of them suffered with indigestion, sick headache, sour stomach, dyspepsia, palpitation and other stomach disorders. They are well today. They took Pepsinco because it helped others, because it is highly recommended.

You try it out. Take a dose of this remarkable preparation, Pepsinco. You'll find we are right. You'll feel better after the first dose. Its prompt action will bring you around to normal health quickly and safely.

So many ordinary ills are closely allied to stomach faults that it is safe to apply the definition of indigestion to practically every internal complaint. If you have trouble with your food; if gas follows eating; if belching distresses you; if flatulency produces heart palpitation or heartburn, then Pepsinco is the preparation for you to take, for it offers the relief decidedly the quickest and best.

You who have suffered with indigestion and dyspepsia owe it to yourself to try Pepsinco. You cannot afford to delay longer. You cannot afford to take false or questionable remedies, the composition of which is uncertain and perhaps wrong. Buy Pepsinco of your druggist and get the scientific indigestion remedy. All druggists have Pepsinco, or we will send you a sample free of charge. The Neuro Pharmaceutical Company, Wapakoneta, Ohio. (Advertisement.)

GIBBONS READY TO DEFEND TITLE

Says He Will Meet All Comers, Only Stipulation Being That They Weigh 185.

WILL LET DARCY DO CHASING

Only One Defeat Marked Against Him and That Was by Clabby in 1908.

BY H. C. HAMILTON.
New York, March 16.—Mike Gibbons, long recognized as the foremost middleweight in this country, and acknowledged by many to be the peer of any in the world, has declared himself champion of his class and says he will meet all challengers, the only stipulation being that they agree to weigh in at 158 pounds, give or take two pounds.

"I will adhere to the old rules of the London prize ring," Mike announced, "meeting all comers, give or take two pounds from 158, the proper middleweight limit."

Mike has been having the time of his life trying to force Les Darcy the Australian into a match, with no success. He now is ready to pass up the famous Kangaroo jumper and let Darcy do the chasing.

It would be a fine thing for boxing if Mike were given the title. It would put an end to such exhibitions as that put on a short time ago in New York when Jack Dillon and Al McCoy battled. Also, it would end for all time any argument as to whether Al McCoy is entitled to the championship.

As a matter of fact, McCoy isn't entitled to the championship any more than anyone else. To be a champion a boxer should be able to defeat the best in his class. McCoy hasn't even kept pace with Freddie Welsh.

There is only one real defeat chalked up against Mike since he began boxing in 1908 and that was when Jimmy Clabby was awarded a decision at the end of ten rounds with the famous St. Paul fish. He has shown badly in one or two no decision contests, among them being one with Soldier Bartfield and one with Packey McFarland. He was generally credited with having been out boxed in both of these affairs.

If Gibbons sticks to his claim and intends to defend the crown he will have plenty of supporters. Most anyone will be willing to concede him the title.

CHOCOLATE CONTAINS NUTRITIVE PROPERTIES.

BY DR. H. E. BARNARD.
(Written for United Press.)
When Queen Victoria sent cakes of chocolate to her soldiers in South Africa, the men who ate her bounty were doubtless as well pleased as they were well fed.

Chocolate is a good food, sweet, meat and stimulant. It contains a great deal of sugar—a concentrated food; nearly 50 per cent of cocoa fat—an excellent producer of heat; from two to three per cent of mineral matter and a small quantity of the obromine. The mineral content furnishes the salts necessary to sustain life and the obromine acts as a stimulant.

On account of its staying powers, and nutritive properties, chocolate has been largely used where a concentrated food is required. It finds a regular place in the dietary of armies and of explorers and as satisfactory food in the trenches as it is in the polar regions. A cup of chocolate at the soda fountain on a cold winter's day makes life seem brighter and a chocolate sundae in the heat of summer serve instead of surf bathing to cool the stay-at-homes.

A boy with his pockets filled with chocolate bars will tramp all day and come home in good condition. If his mother had made him carry sandwiches for lunch, he would have been no better fed and he would have allowed her to fill his pockets only under protest. But chocolate—that's a different matter.

To the Farmers!

Having tried the creamery business through the worst time of the year for cream, I have secured a written lease on the local creamery and am here to stay. I aim to make friends by dealing honestly with the public. That is the only policy that will win.

Do you think it justice to make one suffer for another person's failure? I have risked more this winter to try out the creamery than any farmer will ever risk in selling his cream to me. Some have wondered that we have been able to stay during the winter on such a small amount of cream. "There is a reason." In the first place, I am the only stockholder in the Burchard Creamery Company and I am running it on one-third the expense it cost the stock holding company.

We have worked up a good sweet cream trade and receive a good price for our buttermilk. The men having stock in the old company gave all of their time to other business. They hired men who cared more for themselves than for the success of their employer and ran the creamery to suit themselves. Their butter was of poor quality and had to be sold mostly to commission houses. That was a sure road to failure.

I have a good butter maker. Ask any storekeeper in Rushville about our butter. We sell it all to stores and restaurants at the top price. The grocery keeper wants us to stay. Don't you?

The history of nine out of ten stockholding creameries is failure, but who ever heard of a creamery run by an individual to fail? Home industries should be supported by home folks, so long as an honest policy governs it. I am getting cream 70 miles away, from my relatives and friends. If they who know me, can trust me, why can't you? Give us a trial and we will not disappoint you. With your cream we can succeed and you will not lose by giving us your support.

For my financial responsibility, I refer you to the Peoples National Bank, where I carry my account.

Yours for success,
Harry Burchard

OLD THEORIES ARE STILL FOLLOWED

State Board of Health Says "Measles Parties," an Ancient Belief, Still Continue

WARNING AGAIN ISSUED

Statement Urges Parents to Take Care to Keep Children From Getting Diseases

(By United Press.)

Indianapolis, Ind., March 16.—Although "measles parties" are considered a thing of the past "this relic of barbaric belief still persists and is one of the most serious and vital obstacles in the way of health officials when they attempt to break up an epidemic of measles, whooping cough or chicken pox," according to a statement issued by the state board of health today.

The statement urges parents to take every care to keep their children from getting "children's" diseases, declaring that they are no more necessary to the growth of a child than a snake bite.

"The usual idea of measles is it is a harmless affliction which every child must have," says the statement. "These 'little' diseases are capable of inflicting serious and permanent damage upon the great vital organs, such as the heart, lungs, kidneys and brain. About 260 children die each year in Indiana from measles alone. We must realize that measles is preventable, that it is not harmless and that it is more dangerous to children than grown-ups."

More than 5,000 cases of measles were reported in Indiana during February, not including ten counties where no reports are yet available. There were thirty-two deaths from the disease in January.

Members of American Trade Commission May Have Difficulty in Getting Home

MUNCIE WOMEN IN THE PARTY

(By United Press.)

Washington, March 16.—Just before the German submarine zone order went into effect Mrs. Harriet M. Johnston and Mrs. L. W. Neeley of Muncie, Indiana, sailed as American Trade Commissioners to China to perfect financial connections and trade bases in that Republic for American trade. Their work today is practically completed; but how they are going to get back home is a question, unless they care to brave the U-boat danger zone. No direct word from the men and women members of the commission as to their plans have been received.

Other members of the party are: General Julian S. Carr, Durham, S. C.; Fernando J. Neal of Kansas City; Julius O. Frank of Milwaukee, and J. S. Lawson and Fred Landeck of Wisconsin.

"SAVE THE BABIES."

These are authentic quotations from the pamphlet on babies by Dr. L. Emmett Holt of Columbia University and Dr. Henry L. K. Shaw of Union University.

Concerning the summer care of breast fed babies. Breast milk is the best milk for the summer. Breast fed babies seldom have severe diarrhea. If they vomit or have acute indigestion it is usually because they have been fed too much or too often, or because the mother is so sick or tired out that her milk is poor. In very hot weather the baby should nurse very often. Feed him only about once every 4 hours, but give him cooled, boiled water freely between the nursings.

Moline-Universal Tractor

A PROVEN SUCCESS

Besides the heavy work given it on the many farms, where it has operated during the last two years, men of long experience with tractors have tested the present up-to-date Moline-Universal in a most thorough manner in various sections of the country on different kinds of work.

Built and Backed by \$19,000,000 Concern

When you buy a tractor it is important to know that it is built by a firm of unquestioned experience in farm machinery construction, who are thoroughly responsible, and who stand behind it with a strong guarantee.

We have been building farm machinery for over 50 years; and our \$19,000,000 paid-up capital stands back of our guarantee and is proof that we have given the farmers of America conscientious and satisfactory service.

The Moline-Universal Tractor is an important addition to the unrivalled Moline Line, which includes every tool necessary to prepare the seed bed, plant, cultivate and harvest crops. Any of these tools may be used with the Moline-Universal.

Not An Experiment

Every feature of the Moline-Universal has been given the careful, earnest study of experienced tractor engineers.

No other tractor on the market will do such a great variety of work, nor is as correct in design and construction.

STOMACH UPSET?

Get at the Real Cause—Take Dr. Edwards' Olive Tablets

That's what thousands of stomach sufferers are doing now. Instead of taking tonics, or trying to patch up a poor digestion, they are attacking the real cause of the ailment—clogged liver and disordered bowels.

Dr. Edwards' Olive Tablets arouse the liver in a soothing, healing way. When the liver and bowels are performing their natural functions, away goes indigestion and stomach troubles. If you have a bad taste in your mouth, tongue coated, appetite poor, lazy, don't-care feeling, no ambition or energy, troubled with undigested foods, you should take Olive Tablets, the substitute for calomel.

Dr. Edwards' Olive Tablets are a purely vegetable compound mixed with olive oil. You will know them by their olive color. They do the work without gripping, cramps or pain.

Take one or two at bedtime for quick relief, so you can eat what you like. At 10c and 25c per box. All druggists.

The school children today were
doing their share for the aid of the
tornado victims of Newcastle. Con-
tributions were being received in all
of the school buildings, but early
this afternoon it was not yet known
what the sum would be.

Papers were placed at all of the
drug stores today so that subscrip-
tions for the local committee may
be left there. It was believed by
the local committee that many con-
templated giving but either forgot
or neglected to do it. They will be
reminded by the little paper on the
counter whenever they walk into a
drug store that their names are not
among those who have come to the
aid of the distressed of Newcastle.

Mayor Bebout dispatched \$226
more to the finance committee in
Newcastle today, making \$827.25 in
all which has been sent from here
thus far. Of course, the actual cash
sent will not be equal to the total
the fund shows here because \$200
raised at Carthage and many indi-
vidual contributions were sent direct-
ly to Newcastle.

Three were reported today which
were forwarded to Newcastle as
soon as it was known relief would
be needed and before a fund was
started here. The employees of the
I. & C. general offices here raised
a contribution of ten dollars. This
makes \$22.75 coming from the I. &
C. organization, \$12.75 having been
donated by the car barn men yester-
day.

The churches of the city are in
sympathy with the fund and will of-
fer their members the chance to
contribute Sunday. It is expected
that the money raised in the church-
es will be sent through the local
fund.

The largest country subscrip-
tion came in today when a woman
living near New Salem gave Mayor
Bebout ten dollars. She asked that
her name not be made public.

Although Rush county is doing
well, there is ample need for the
money at Newcastle. Red Cross

MINISTERS ARE IN ACCORD WITH FUND

Rushville Association Believes
Church Donations Should be
Sent Through Local Channels

TO ACCEPT MONEY SUNDAY

The Rushville Ministerial associa-
tion is in hearty accord with the
movement here to raise money for
the people who suffered in the cy-
clone of last Sunday afternoon and
has announced that all Rushville
churches Sunday will give their
members opportunity to contribute
to the relief of the stricken people.

"It is the sentiment of the minis-
terial association," said Dr. D. Ira
Lambert, secretary of the associa-
tion, "that the Rush county contri-
butions should all go through one
source. We urge church members
to contribute through the regular
channels, but if they desire to do it
in the name of their respective
churches, they will be given oppor-
tunity Sunday."

The Rev. C. M. Yocum, president
of the association, said this morn-
ing that he favored sending what-
ever money is donated at the
churches Sunday through the local
fund because it is much more sat-
isfactory to have relief work organ-
ized and done under one head.

workers who have surveyed the situ-
ation are sure that \$100,000 will
be none too small to meet the con-
ditions. The latest word is that about
\$35,000 has been raised so it will be
seen that there is no reason to be-
lieve that money contributed now
will not find plenty of chance to do
good.

Every local person who has gone
to Newcastle has come back with
the word that newspaper descrip-
tions have not been enlightening
enough; they have not told the story
as it really is because words are
lacking. A large number of the
people who have already contributed
have done so because they have seen
the wreckage and realize the need.

Costello, 70, killed his wife with a
hammer, set fire to their home and
then killed himself by shooting, here
today. The couple had been sepa-
rated for some time and when Mrs.
Costello came to see her husband in
an effort to effect a reconciliation he
killed her.

Russian Revolution Likely to be Felt
in Greece

(By United Press.)

Washington, March 16.—That the
Russian revolution may be immedi-
ately followed by stronger pressure
by the allies on Greece and perhaps
mean the removal of King Constant-

CREAMERY CASE IS SENT TO HANCOCK

Suit to Collect Note Given for Stock
Tried Twice Here, Goes on
Change of Venue

JURY DISAGREES EACH TIME

The case of the Creamery Pack-
age Manufacturing Company against
Thomas E. McAllister, on a note,
demanding \$150, which has been
tried twice here, the jury disagree-
ing both times, was sent to Han-
cock county this morning by Judge
Sparks when he granted a motion
for a change of venue.

The note is alleged to have been
given for stock in the defunct
creamery and was never paid be-
cause it was claimed the promoters
of the company did not carry out
their part of the agreement. Both
times the case was tried the jury
failed to return a verdict. In all
about twelve cases of a similar na-
ture are pending in court.

Mrs. Nellie Morris, colored, has
been granted a divorce from James
Morris. The divorce was granted
on Feb. 26 and was overlooked be-
cause the court docket was cleared
of old cases in the middle of the
term. Morris did not fight the case
and the decree was entered upon
payment of the costs, which Mrs.
Morris did.

DEMOCRACY IS IN CONTROL OF RUSSIA

Czar Nicholas Abdicates, Empress
is Detained and Socialists
are Captured

ALL PRISONERS SET FREE

(By United Press.)

Petrograd, March 16.—Democracy
today controlled Russia. Czar Nich-
olas has abdicated; the Empress is
being detained and socialists have
been captured.

Fifteen assemblies of the Russian
nobility adopted resolutions today
declaring their support of the revolu-
tion. The minister of justice of
the new provincial government has
freed all prisoners.

Grand Duke Michael, commanding
the army, has sent word to the duma
that in agreement with the Russian
chief-of-staff he had advised the
czar to abdicate, such a measure be-
ing necessary to save Russia and
bring the war to a successful end.

prosecuting witness could not be
found and several other witnesses
could not be reached. Farley went
to jail to await the trial, being un-
able to give bond.

EFFECTIVENESS DEPENDS ON CROWD

Whether Proposed County Forum is

Attendance Tonight

ORGANIZATION AT 8 O'CLOCK

It is believed that the size and
interest of the crowd which ap-
pears tonight for the meeting to or-
ganize the Rush county forum for
the discussion of subjects to come
before the constitutional convention
will determine largely the effec-
tiveness of such an organization in the
county. The meeting will be held at
eight o'clock in the court house as-
sembly room and will be addressed
by Ross F. Lockridge, secretary of
the Citizens League of Indiana, who
will assist in the organization of
the forum. Mr. Lockridge will ar-
rive here at 7:40 o'clock over the
I. & C.

It is the purpose of the proposed
county unit to stand sponsor for
the intelligent discussion of ques-
tions which will come before the
constitutional convention next Janu-
ary. The Citizens League of Ind-
iana will provide speakers whenever
desired by the forum to talk on sub-
jects which will come before the
convention. No dues will be charged
members of the organization.

OLD TEACHER OF THIS COUNTY DIES

Samuel C. Longfellow, Age 67, Ex-
pires at Anderson of Apoplexy
—Taught Thirty Years

FUNERAL AT RALEIGH SUNDAY

Samuel C. Longfellow, age sixty-
seven years, a pioneer school teach-
er of this county, died very suddenly
of apoplexy at Anderson, Ind., yester-
day. Mr. Longfellow began teach-
ing years ago while the late Prof.
Moffett was county examiner and
continued in that profession for
more than thirty years.

In early manhood he suffered a
fracture of his left arm which re-
sulted in the formation of a false
joint, crippling him for life. As a
teacher he was eminently success-
ful, well liked, courteous and agree-
able, and although crippled was a
workman on the farm.

His wife, Rosetta (Durham)
Longfellow, died February 17, 1897,
leaving five small children to his
care, and through all the trials
and hardships incident to helplessness,
the members of the family
were kept together and, all but one,
Kate, survive their father and have
families of their own.

CALLS CABINET TO CONSIDER STRIKE

Wilson Meets With Heads of Depart-
ments This Afternoon at 2:30
to Determine Course

FOUR MEDIATORS ARE NAMED

Secretaries Lane and W.
Willis and Gompers to Confer
With Two Factions

(By United Press.)

Washington, March 16.—Secretar-
ies Lane and Wilson, President Wil-
lis of the Baltimore and Ohio rail-
road and Samuel Gompers have been
designated to confer with the rail-
road managers and the brotherhoods
on the strike situation.

Washington, March 16.—Faced
by the gravest domestic situation
which has threatened the country
in many months, the president called
his cabinet into session this after-
noon at 2:30 to devise a course of
action in the fight between the rail-
roads and their employees.

The president's hands, it is ad-
mitted, are tied in so far as being
able to adopt any drastic measure
to ward off the strike.

Possibilities of an injunction
against the strikers or the throwing
of the railroads into the hands of
receivers and the government oper-
ating the roads in this manner were
discussed in official circles.

Announcement of the president's
course is expected after the meet-
ing.

The president is expected to make
it clear to the people of the country
his efforts to avert a strike.

If in event of all failure to com-
promise and the strike comes the
president will take occasion to in-
form the country where he believes
the blame rests for a situation of
powerless possibilities whereby the
train systems of the country are
tied up in the face of a great inter-
national crisis.

PREPARING FOR A STRIKE

tomorrow night. The expenses of
the special police is being borne by
the railway companies.

VIGOROUS ACTION EXPECTED

Secretary of War Prepares State-
ment on the Strike Situation

(By United Press.)

Washington, March 16.—The deci-
sion of the government to take a
vigorous course of action in the
strike situation met with favor on
all sides. The secretary of war was
preparing a statement for the peo-
ple of the country. The course of
action decided upon was outlined at
a meeting of the defense council,
excluding Secretary of Labor Wil-
son.

ORDERS GENERAL EMBARGO

Michigan Central Prohibits Freight
Because of Strike Order

(By United Press.)

Detroit, Mich., March 16.—Offi-
cials of the Michigan Central here
at noon today ordered a general em-
bargo on all freight shipments ef-
fective immediately. General Super-
intendent, Sherer, transmitted the
order to all division points.

SUMMER PRICES WILL BE HIGHER

Quotations on Coal Will Likely Not
be as Low as in Former Years,
Dealers Here Say.

PRICES FIXED ON APRIL 1

Anthracite Quotations Generally
Hold Steady but Soft Coal Al-
ways Varies During Year

There will likely be a summer
coal price but it will not be as low
as in former years and local deal-
ers believe the price will be close to
what is ordinarily paid for coal in
winter months. The new prices for
the year are fixed on April 1. The
hard coal prices go into effect on
this date and hold for most of the
year, but soft coal prices always
vary greatly from the set price.

Poconantas lump coal was quoted
here today at \$7 a ton. There are
no quotations available for future
delivery, but the dealers say sum-
mer prices will prevail this year as
usual, except that the summer price
will be higher. People who usually
lay in their winter's supply of coal
—and there promises to be more this
year than ever before—will be
forced to pay more for the product
unless something unforeseen hap-
pens to the coal market.

Rushville people, who did not lay
in any coal last summer and were
forced to pay high prices all winter,
resolved to buy their coal during
the summer months and take a tan-
tage of the cheap price and escape
a famine like this winter. Many
will still do this but the price prom-
ises to be nowhere near the prices
last summer. One dealer said today
that the price would probably be
\$1 or \$1.50 a ton during the sum-
mer. This is about the usual winter
price.

The Retail Coalman, a monthly
publication, official organ of the In-
ternational Council of Coal Mer-
chants, says that instead of a re-
duction indications are that there
will be an advance. The paper de-
clares that the wonderful demand
for fuel continues unabated.

The April price circular has not
been issued, but the probabilities are
there will be an increase of 25 cents
a ton on the smaller sizes of an-
thracite, with other grades remain-
ing the same.

This condition is brought about

To Mr. Ultimate

Consumer

This is an important message
to you.

When quality is lowered or
prices raised you are expected to
pay the bills.

But to a certain extent the
remedy is in your hands. You
do not have to accept an inferior
brand of goods or to pay more
than a fair market price—for
your retailer carries advertised
goods and these are "right" in
quality and price. If they were
not right, it would not pay con-
tinually to advertise them. Ad-
vertised goods are dependable.
See that you get them—and thus
protect yourself!

Knowledge is power. Keep
posted as to what is being offered
and as to what the prices are.

The advertising in this news-
paper is at your service every day
in the year. It is written to you
and for you.

It contains the news that is of
interest to your pocketbook.

It spreads the markets before
you and brings the town's show-
windows to your feet.

Read and profit—let some-
one else get the unadvertised in-
ferior or overpriced goods and
thus pay the penalty for not
"keeping informed."

HOG PRICES DOWN TEN CENTS TODAY

WOMEN GIVE OUT

Housework is hard enough when healthy. Every Rushville woman who is having backache, blue and nervous spells, dizzy headaches and kidney or bladder troubles, should be glad to heed this Rushville woman's experience:

Mrs. Joseph S. Endicott, 125 S. Harrison street, Rushville, says: "Sometimes I overdo at my housework and take cold and it is at just such occasions as this, that I have trouble with my back. Once the doctor pronounced it an attack of lumbago. My back became so lame that I was miserable and everything in the way of work wore me out. When stooping, sharp catches seized me across the small of my back. Doan's Kidney Pills, which I got at Pitman & Wilson Drug Store never failed to cure me of these spells." Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Endicott uses. Foster-Milburn Co., Props, Buffalo, N. Y. (Adv.)

CONSIDER ALL-DAY PICNIC

Modern Woodmen May Hold "Open Air" Class Adoption July 4.

At a meeting of the Modern Woodmen lodge next Thursday night plans for holding an all-day picnic and "open air" class adoption on July 4 will be discussed and probably something definite done. An interesting meeting of the lodge was held last night when one candidate was taken into the order. The guests of the lodge were several Carthage men who formerly held membership in the Carthage camp, but who recently transferred their membership here. The camp voted to give \$5 to the Newcastle relief fund. The following from Carthage were here last night: Ed Adkins, Byron D. Ball, George Hinshaw, William Hinshaw, Rowland H. Hill, Rice Hill and Ed Miner.

SCHOOLS WILL GIVE SHOW

Colored Slides of Mexico and Moving Picture to be Shown

A big show for five cents is being advertised for Monday night at the Graham Annex auditorium to be given under the auspices of the schools of the city. Fifty colored slides of Mexico will be shown as a starter. The slides show the history and customs of the country and pupils from the schools will lecture as the slides are shown. The program will be concluded with a three reel Thomas Jefferson Morgan film. This is a vocational film and should prove a benefit to the pupils and parents alike. The program will last about one and one-half hours and will start at 7:30 o'clock.

A CITY OF SILENCE.

Conditions That Make Santa Cruz de la Sierra Noiseless.

Amid gusts of Scotch mist and under heavy skies we drifted inertly into a sand paved, silent, tropical city street, past rows of languid stares, and on the last afternoon of the year, with Cochabamba (a town in the center of Bolivia) 335 miles behind us, we sat down dripping and sunburned in the central plaza of Santa Cruz de la Sierra.

The capital of all the vast tropical department of eastern Bolivia owes its fame largely to its isolation. Far away one hears much of it; once there, he finds little. Like the eminent men of many secluded corners of South America, it is important only through the exceeding unimportance of its neighbors.

It is a city of silence. Not only its bare feet, but its primitive ox carts make not a sound in the sand streets. There is no industry to add its strident voice, and every street fades away at each end into the trackless, whispering, jungled montana.

In this rainy season, which begins in earnest with the new year and lasts through April, it had many muddy pools and ponds, along the edges of some of which the streets crawled by

on long heaps of the skulls of cattle, bleached snow white by the sun.

The larger ponds were almost lakes and carried the mind back to Kandy, Ceylon. Frequently the streets were flooded deep for an hour or more until the thirsty sand had drunk up the tropical deluge. For these eventualities the town has a system of its own. At every street corner four rows of weather blackened piles protrude a foot or more above the sand, and along these stepping stones the shod minority passes from one roofed sidewalk to another.

The houses invariably consist of a large room, by-day opening directly on the porch sidewalk, though the best of them are rather bare in appearance, despite a small forest of frail cane chairs, black in color, as the best provided Crucero family is not rich by our standards.—Henry A. Franck, in Century Magazine.

TODAY'S HOOSIER ODDITY

Greensburg, Ind., March 16.—Ora Barnes raised a hog weighing 820 pounds. When he called in the neighbors to help him butcher it, Ora explained that he wanted to kill it to "stop its growth."

An exchange will be given Saturday morning in the Kramer Meat market by Helen Scudder's class of the St. Paul's M. E. Sunday school.

RAGAMUFFIN ABYSSINIA.

Its Despotism Rulers Descend From
Menelik, Son of Solomon.

Abyssinia is the Ethiopia of the Bible, and it is almost unchanged since the birth of civilization. The line of despots that rule Abyssinia today are the direct descendants of Menelik, the son of the queen of Sheba and King Solomon. They seem to have inherited very little of the well known wisdom of their famous sire, however, for Abyssinia is today the unregenerate ragamuffin among nations—and also the picturesque remnant of the world's oldest civilization.

For Abyssinia, surrounded by tropical wilderness and without a seaport, is a country apart from the modern world—a country of turbulent and sandaled men, of veiled women wearing silver anklets, of mighty hunters who still take their game with leopards and hawks as in Biblical days; a land where gentlemen live by plunder and monks by alms and a man has as many wives as he can buy or steal.

Abyssinia is a fortress of antiquity, defying the world by its sheer physical impenetrability. But a few degrees from the equator, it is a great mass of igneous mountain ranges flung down upon a tropical plain. Lower Abyssinia is burning desert and fever ridden jungle. The interior is healthy upland cut by great gorges, many of which are wholly impassable. In the midst of this wilderness is Lake Tsana, forty-seven miles long and more than 5,000 feet above sea level. It is the source of the Blue Nile.—Exchange.

Electricity in the White House.

The White House is said to have the most intricate and complete electrical system installed in any building in this country. There are in the mansion nearly 170 miles of wires providing for 3,000 incandescent lights, a bell system, a private telephone system for the president and his family exclusively, burglar alarms, fire alarms and a power system which supplies current to ventilating fans and an automatic elevator.

That Pesky Fly

Sanitarians teach us that flies kill more human beings than war. That is a broad statement when we consider that ten million persons have lost their lives in the European war. When we dwell on the great war of today, words fail us, yet statistics disclose that disease transmitted by the common little old pesky housefly kills more than great armies.

Once upon a time, when the campaign against the fly was in its infancy, the slogan was "swat the fly." Of course, swatting the fly is a fine maxim that should hang in every home, but latter day methods have added another slogan; in is starve the fly.

Starving the flying is preparing for his coming. We hear a lot about preparedness against war, but we are apt to overlook the vital necessity of preparing against the housefly, which just now is arranging his invading armies ready to move over the United States at the first sign of warm weather.

To make it an entirely personal question, are you prepared for the fly? There is an old adage that "an ounce of prevention is worth a pound of cure." It never was so applicable as today. Here are some of the ways, according to an authority, to guard against the fly by starving him:

Garbage—This is food waste only. Always keep it in a metal can with a tight cover. Do not let flies get into it.

Rubbish—This includes ashes, bottles, tin cans, junk and house sweepings. Always keep it in boxes or barrels of average size.

Waste Paper—This should be kept from rubbish. Always keep it dry. Put it in burlap bags or tie it up in bundles. If kept in the basement it should never be near the furnace nor under the stairs.

Vacant Lots—The owners of vacant lots are responsible for keeping them clean. Do not throw your rubbish or garbage in these lots. It is not good citizenship and is a menace to your health. Try to get them cleaned up and see if you can put in a garden.

It is presumed that the striking trainmen will now be placed in the

Died of Premature Old Age!

(BY V. M. PIERCE, M. D.)

How many times we hear of comparatively young persons passing away when they should have lived to be 70 or 80 years of age. This fatal work is usually attributed to the kidneys, as, when the kidneys degenerate, it causes auto-intoxication. The more injurious the poisons passing thru the kidneys, the quicker will those noble organs be degenerated, and the sooner they decay.

It is thus the wisest policy, to prevent premature old age and promote long life to lighten the work of the kidneys. This can be done by drinking plenty of pure water all day long, and occasionally taking a little Anuric (double strength) before meals. This can be obtained at almost any drug store. Anuric will overcome such conditions as rheumatism, dropsical swellings, cold extremities, scalding and burning urine and sleeplessness due to constant arising from bed at night.

WELL-KNOWN NEW ALBANY WOMAN SPEAKS.

New Albany, Ind.—"I suffered for a number of years from trouble from which only women suffer. I tried all kinds of medicines and several doctors, but they did me no good. I was in bed at the time. I guess I would have been in my grave now if I had not tried Dr. Pierce's wonderful medicine, Favorite Prescription, and Golden Medical Discovery. I took about seven bottles of each and now am well and able to do my housework, can even wash and iron. I cannot say too much for these great medicines, and am glad of the opportunity of expressing my appreciation of them."—Mrs. JULIA ROBERTS, 44 W. 11th St.

class with Senator Stone, Senator LaFollette and ten other United States senators who by filibustering defeated the armed neutrality bill before the senate rules were amended to prevent such tactics.

This must be a case of modern brotherly love, Grand Duke Michael assuming the throne of Czar Nicholas after the latter is forced to abdicate.

EARLY HATCHING FOR SIZE.

Contrary to general belief and practice, chicks do not grow or thrive as well during the warm months or hot summer days as they do earlier in the spring. Experienced poultrymen realize this fact. The average farmer, however, does not make an effort to hatch early so that the chicks will have the advantage of a longer and more favorable growing season. Early hatching not only insures more rapid gains in the growth of chicks but has a favorable influence on the size of the individuals of the flock. Late hatched chicks rarely, if ever attain the size of those hatched early. Early hatching likewise influences early maturity and consequently early egg production.

Given the same food, care and attention, chicks hatched the first of March will weigh more when they are four months old than those hatched a month later, say the poultry specialists of the U. S. Department of Agriculture. This likewise holds true with chicks hatched the first of April as compared with those hatched May first. This is due to the fact that the rate of growth of a chick is greater during the first four weeks of its life than at any other time. Consequently, the early hatched chick, having the advantage of a more favorable growing season, makes greater gains during the first four weeks of its life than the late hatched chick. During the early spring months when the temperature is not so varied the growth of chicks is more uniform and constant than it is during the summer.

Millions of chicks die every year as a result of being infested with lice which, under average farm conditions, are oftentimes difficult to control. Hen-hatched chicks are not as subject to lice in the early spring as they are during the warmer months when lice are more prevalent. If for no other reason chicks should be hatched early so their growth will not be interrupted by the presence of lice.

Many farmers realize considerable money each spring from the sale of broilers, the price of which is usually governed by their size when sold and the time marketed. Thus it would seem that in order to increase the amount of money from the sale of broilers and fivers early hatching would be employed so as to have a marketable-sized fowl early in the spring when prices are highest.

"Old Timers" Show Flash
of Form; Defeat VarsityFaculty Wins Basketball Game by
Unknown Score With Aid of
Friendly Step Ladder

SPARKS PRAISES VARSITY

The Faculty defeated the Varsity last night, but no one knows the score. The "old timers" put up a wonderful exhibition and with Earl Marlatt on a step ladder close to the basket, goals were registered with startling regularity.

The Varsity claims the referee was against them and accuses Judge Sparks of helping in their defeat. On free throws three shots were taken and towards the end of the game the Faculty threw the ball into a large waste basket watched over by Judge Sparks near the sideline.

The Faculty displayed wonderful form although handicapped by the absence of their two best players, Parke who was declared ineligible because he has only one study and Cullipher who could not find a pair of shoes large enough. Prof. Stewart and Prof. Masters were the star performers for the Faculty. Their shots from under the basket, the ball going up and through the

net instead of coming down through it were remarkable.

The game lasted about fifteen minutes and furnished more good laughs than anything seen on the local floor in years. The farce ended when Prof. Stewart and Judge Sparks "threw a few bouquets" at the team. Judge Sparks praised the team for the year's work and presented the silver cup won at the invitational tournament here a few weeks ago. The cup was accepted on behalf of the team by Ralph Martin, captain of the five. Martin responded with a few words and declared he was sorry he could not play next year as he liked the game.

Judge Sparks praised the work of Prof. Masters, who has acted as coach of the team. The success and spirit of the team was due to Coach Masters and he was given due credit by the speakers. Prof. Masters was called upon and in a few words told the crowd that he was thankful for the praise and only hoped for better things next year. He praised the work of the boys during the past season.

After the speech-making ceremonies, the Varsity clashed with a picked team from the high school.

Sign For Stars of Yesteryear.

Think 'way back now. Dust the cobwebs from the recesses of your brain and repeat to yourself the names of the first screen stars whose pictures you followed and whose acquaintance you sought. It is a pretty safe venture on my part that only one or two are featured today. For some of them were very, very young when success was proclaimed theirs.

You of the American public are fickle. What of the hero who seemed to stand for such noble things three years ago? What of the heroine who was your ideal—of whom you dreamed and whose portrait decorated your dressing-table? Does it not matter to you that these, your first love as far as motion picture stars went, are almost forgotten?

These thoughts came to me only yesterday when I was cleaning out an old trunk in which I have kept a file of motion picture magazines. As I ran through the picture gallery and then the stories and interviews, one old favorite after another greeted

me. In a number of cases the gowns and hats the women wore looked rather funny and I wondered if I, too, at my screen debut a couple of years ago had appeared like that.

I know that some of the old stars are still enjoying the tag end of their popular following, but there are many others who perhaps have retired altogether from the pictures. Yet these magazines were no more than three years old.

And what's this all about, you ask? How can you help it if the motion picture star does not remain a star forever? You can't. And there's just one consolation that such is the case, for it gives the joy of being loved by the great public to more people than it would if things were otherwise.

But friends—you can give the star something to help after he or she is forgotten. The letters which you write your favorite—I don't mean the silly, foolish letters but the other kind—mean much in their lives. You will perhaps never guess just how much unless you too should reach stardom some day.

Have you anything to say in your defense before sentence is pronounced upon you?" asked the Judge.

"Only one thing," said the convicted burglar. "The only thing I have objected to in this trial was being identified by a man that kept his head under the bedclothes the whole time I was in the room. That is not right at all."—New York Times.

HOOSIER BRIEFS.

Terre Haute—Wooden shoes have made their appearance in Terre Haute on account of the high price of leather. The soles and heels are made of cottonwood and are an inch thick.

Muncie—Ten-cent stores in Muncie no longer are ten-cent stores, following the raise in price of many articles formerly sold for a dime to fifteen cents.

Amusements

The Lyric will show the five act feature "The Bruiser" for the program tonight. William Russell is featured and it is said to be a thrilling picture. It is said to be an exceptional picture showing many big scenes. The usual program is offered for Saturday.

The Gem will show the feature picture "The Welsh Singer" for the program tonight. It is a picturization of Allen Raine's widely read novel of the same name. Romantic Wales, seething London and historic Rome furnish the settings. The Welsh scenes in particular are unusually true to life, most of them having been enacted on the exact spots mentioned in the novel. Florence Turner, who is featured is supported by Henry Edwards, Campbell Gullow and Maelon Cherry.

The Princess offers the feature picture "Temptation" for the program tonight. It is a Lasky production and features Geraldine Farrar, the famous star of the Metropolitan Opera company. The story of the play concerns the trial and hardships endured by a young American girl to obtain a hearing before grand opera audiences. A glimpse back of the scenes is shown. In addition to this feature a reel of the Barton Holmes travel pictures will be shown.

by unprecedented industrial activity, which keeps up a steady demand for all grades as fast as it can be mined, thus permitting no surplus stocks to accumulate.

"It seems certain we shall see a continuation of firm prices and brisk demand for a year to come," says the Coalman. "There is only one thing for the retail coal merchant to do, and that is to be extremely cautious about quoting any prices to his customers until he is absolutely sure at what price he will be able to buy his supply."

FAIL WITH SALOONS
NOW TRIES GROCERIES

Buenos Aires, March 16.—Having tried and failed to close the saloons on Sunday, the Buenos Aires city government is making a similar experiment with the grocery stores. The idea is to give the clerks a day's rest a week. It is not a religious movement. Most grocery stores really do keep their front entrances shut which the saloons never did, but they do a tremendous side door trade.

"TIZ" FOR SORE,
TIRED FEET—AH!

"Tiz" is grand for aching, swollen tender, calloused feet or corns.

Ah! what relief. No more tired feet; no more burning feet; no more swollen, aching, tender, sweaty feet. No more soreness in corns, callouses, bunions. No matter what ails your feet or what under the sun you've tried without getting relief, just use "Tiz." "Tiz" is the only remedy that draws out all the poisonous exudations which puff up the feet. "Tiz" cures your foot trouble so you'll never limp or draw up your face in pain. Your shoes won't seem tight and your feet will never, never hurt or get sore and swollen. Think of it, no more foot misery, no more agony from corns, callouses or bunions. Get a 25-cent box at any drug store or department store and get instant relief. Wear smaller shoes. Just once try "Tiz." Get a whole year's foot comfort for only 25 cents. Think of it.

FOUR MEMBERS OF FAMILY GET AID

All Start Taking Tanlac When Charles Fluke is Benefited Greatly

South Bend, Ind., March 15—"The four members of my family easily notice the great improvement in my condition I have gained recently and I am positive that the only thing that could bring such a remarkable change in me is Tanlac," Charles Fluke, of 316 North Erie street, this city, a machinist at the South Bend Lath Works, said on January 24.

"My system was all run down, my general health being very poor," Mr. Fluke continued. "My stomach was in bad shape, indigestion bothering me. My appetite was very poor and what little food I did eat was not digested properly. I would always feel and distressed and miserable after eating. I'd get up in mornings feeling bad and never felt a bit like working."

"I've taken three bottles of Tanlac now and I feel just great. I sleep soundly at night now and get out of bed in mornings ready for a hearty breakfast and then work. And my work is a pleasure, too. Yes, the four members of my family have easily seen the great change Tanlac has brought about in me and now, they have started taking Tanlac."

"Tanlac is undoubtedly the best medicine I ever tried in my life and I want to recommend it."

Tanlac, the Master Medicine, is especially beneficial for stomach, liver and kidney trouble, catarrhal complaints, nervousness, loss of appetite and the like and is fine for building up the system and relieving the after effects of colds, la grippe, pneumonia and the like.

Tanlac is now being specially introduced and explained in Rushville at F. E. Wolcott's drug store; in Arlington at Mrs. L. T. Davis's; in Carthage at J. H. McCarthy and Sons and in Milroy at Barton and Sheppards.—(Adv.)

The eight members of the Pirate Bridge Club spent a pleasant afternoon as the guests of Mrs. Harrie Jones at her home in North Harrison street yesterday afternoon. The afternoon was spent in interesting games of Pirate Bridge. For the service of the delicious luncheon, the guests were seated at the dining table in the center of which was a fragrant bouquet of hyacinths. Mrs. Donald Smith will entertain the club members in two weeks.

Last evening, the home of Mr. and Mrs. Claude Smith was the scene for a merry company when a turtle supper was given. The service of the elegant supper was followed by a delightful social evening, playing "500" and engaging in other games. Guests for the affair were Mr. and Mrs. Scott Hosier and children, Scott Jr., and Mary, Mr. and Mrs. Russel Bearinger and son, Myron, William Ruhlman, Miss Margaret Rittenmeyer, Mrs. Nettie Orme, and Errol J. Stoops.

Mrs. Bruce Beck entertained with a pretty little affair for the members of the D. T. Club at her home in North Jackson street yesterday afternoon. Her guests included five members of the club and two invited guests, Mrs. Bennett of Chicago, the guest of Mrs. Knowles Casady, and Mrs. Gibson Ross of this city. Following the social afternoon, the hostess served a dainty luncheon in which St. Patrick's favors were in evidence. Mrs. Theodore Abercrombie Jr., is to have the next club meeting.

Mr. and Mrs. Alva Newhouse were pleasantly surprised Tuesday evening at their country home north of the city by a number of friends. They brought with them a pitch-in supper and after its service, a gay evening was enjoyed. The guests were Mr. and Mrs. Jesse Gray, Mr. and Mrs. R. W. Alexander, Mr. and Mrs. L. A. Ward, Mr. and Mrs. George L. Newhouse, Mr. and Mrs. I. W. Stevens, Mr. and Mrs. A. T. Jenkins, Mr. and Mrs. R. W. Nixon, Mr. and Mrs. J. A. Stevens, Mr. and Mrs. Charles Leisure, Mr. and Mrs. E. E. Ellison, Mr. and Mrs. J. D. Warfield, Mr. and Mrs. John Ellison, Mr. and Mrs. Gray E. Maboning council, number 36, meets in the Red Men hall this evening at 7:30 o'clock promptly.

An impromptu dance is to be given at the Social Club this evening, to which all of the club members are invited. There will be no admission. The formal dance to have been given by the ladies of the Club this evening has been postponed.

Dr. and Mrs. J. C. Sexton are entertaining at dinner at their home in North Main street this evening honoring the house-guests of their son, Cullen Sexton, who is home from Cincinnati university for the week-end. The interesting guests for the week-end are Wallace Ryall of Wooster, Ohio, Miss Jean Taylor and Miss Bertha Allen, both of Glendale. Other guests at the dinner this evening are Miss Edith Wilk, Miss Emma Casady, Posey Denning, and Miller Hamilton of South Bend.

The monthly meeting of the D. A. R. was held at the home of Mrs. A. L. Gary in North Morgan street yesterday afternoon when about 15 members were present. The feature of the program was a very interesting paper by Mrs. Lou Havens on "Early American Colleges" in which some facts concerning establishment and customs of these schools were told in a good way. Mrs. Edward Strong of Indianapolis, a member of the chapter, was present at the meeting. Light refreshments were served by the hostesses who were Mrs. Gary, Miss Emma Casady, Mrs. Morton Gray and Mrs. Mary Cotton. The next meeting will be at the home of Miss Alice Norris, when the general subject of the program will be on "The Indian."

An Announcement

Mrs. L. J. Weeks has returned from Chicago, where she spent two weeks in the careful study of the CORSET, its construction and its mission. She has brought with her diplomas from both The Gossard and Kabo Schools

What These Diplomas Mean to the Women of Rush County

First They mean that the women of Rush County may receive, free of charge, authoritative advice from our graduate corsetiere.

Second Our corsetiere is not only specially trained in all branches of corset fitting, but is able to give authentic style information regarding all branches of women's apparel.

Third Being expertly trained our corsetiere is able to discuss with the women of Rush County the new Spring fashions and the vital relation of the new Gossard and Kabo models bear to the successful attainment of the new silhouette.

Fourth She will serve you in the corset department; is competent to make medical fittings and will give most careful attention to any special needs which a physician might prescribe.

Fifth These diplomas mean that the women of Rush county may be assured they can get the correct corsets for their individual type from the standpoint of style, comfort and wearing service.

Let a Graduate Corsetiere Serve You. You Will Notice the Difference at Once

One of the most novel programs of the year for the Ladies Musicales will be given Monday afternoon at the regular meeting in the assembly room of the court house. "A Life Story in Tones" will be enacted. The paper to be read by Mrs. Lon Kennedy will be represented with musical selections. The theme of the paper carries a baby through every phase of life until he becomes a man and later dies. The types of music suggestive of the scenes of his life are to be sung and played. Illustrating the paper are the following numbers:

Mr. and Mrs. Fred Cochran entertained the members of the Harmony Club at their home in West Second street last evening. The twelve club members spent the evening in playing "500" and during the service of the supper, clever St. Patrick's favors were given. The ice and other appointments of the refreshments were in green. The next meeting of the club will be with Mr. and Mrs. Ed Beer.

A One-Sided Argument

A penitent-looking man was on trial for vagrancy and disturbance of the peace. The judge seemed inclined to be lenient with him. "What was the prisoner doing when you arrested him?" he said to the policeman.

"He was having a very heated argument with a cab-driver, your Honor."

"But that doesn't prove that he was the worse for liquor," the judge said. "Many sober people have arguments with cab-drivers."

"So they do, your Honor," said the policeman, "but in this case there was no cab-driver."—New York Times.

FORMER RESIDENT DEAD

Word has been received here of the death of Salem Shumway at Greenfield. Mr. Shumway formerly lived near Andersonville and was well known in this county. He was 76 years old. Mr. Shumway suffered a stroke of paralysis about noon Wednesday and died a few hours later.

CONFERENCE TO MEET

A meeting of the Indiana conference of the M. E. church will be held at Roberts Park church in Indianapolis next Wednesday for determining whether Moores Hill college shall be moved. Both Seymour and Evansville want it. The Rev. W. M. Whitsitt will attend.

RUSSIAN SYMPHONY

A number of local persons are interested in the concert, to be given by the Russian Symphony orchestra at Columbus in the opera house tomorrow evening. It is the same orchestra which gave a concert in Indianapolis last fall, with Modest Altschuler as conductor, and Michel Gushioff as soloist.

IF KIDNEYS AND BLADDER BOTHER

Take a glass of Salts to flush out your kidneys and neutralize irritating acids.

Kidney and Bladder weakness result from uric acid, says a noted authority. The kidneys filter this acid from the blood and pass it on to the bladder, where it often remains to irritate and inflame, causing a burning, scalding sensation, or setting up an irritation at the neck of the bladder, obliging you to seek relief two or three times during the night. The sufferer is in constant dread, the water passes sometimes with a scalding sensation and is very profuse; again, there is difficulty in voiding it.

Bladder weakness, most folks call it, because they can't control urination. While it is extremely annoying and sometimes very painful, this is really one of the most simple ailments to overcome. Get about four ounces of Jad Salts from your pharmacist and take a tablespoonful in a glass of water before breakfast, continue this for two or three days. This will neutralize the acids in the urine so it no longer is a source of irritation to the bladder and urinary organs which then act normally again.

Jad Salts is inexpensive, harmless, and is made from the acid of grapes and lemon juice, combined with lithia, and is used by thousands of folks who are subject to urinary disorders caused by uric acid irritation. Jad Salts is splendid for kidneys and causes no bad effects whatever.

Here you have a pleasant, effervescent lithia-water drink, which quickly relieves bladder trouble.

NEWCASTLE SETS GOAL AT \$25,000

City of Roses Expects to Raise That Much of Fund For Those Who Lost in Cyclone

TOTAL NEED PUT AT \$100,000

Farmers Provide Wagons for Hauling Away Debris and Country Women Take Food to City

Newcastle, Ind., March 16—Under the direct supervision of Jack Mueller, chairman of the local relief committee and J. J. O'Conner, of Chicago, director of the central division of the Red Cross Society of America, the relief work in Newcastle is being handled very capably and all the sufferers from Sunday's havoc-wrecking tornado are being cared for.

The efficient methods and organization of the Red Cross, coupled with the excellent work being done by all the people of Newcastle, is making the situation of relieving tornado sufferers easier today than it has been in the past two days, during which, for at least a part of the time, activity in the relief work was necessarily suspended to allow the completion of the relief organizations.

The main problem confronting the local committees today is that of raising the necessary money. The finance committee requests \$25,000, which Newcastle must give to hold up her end of the \$100,000 subscription for the sufferers of the city.

A committee which will be announced later, will make a thorough canvass of the city to raise money for the sufferers. The people are warned not to make any payment to any one not named in the committee and only after proper credentials are shown.

The work of cleaning up the debris over the city was commenced in earnest this morning. Farmers flocked into the city with their teams and wagons and compassionate farmers' wives came along, bringing baskets heaping with food. The women turned their provisions over to the commissary and the men took their teams to the ruined sections of the city and there, with a small army of men already on the scene, began the work of hauling away the debris.

The women of the city have shown the true brave spirit common to the people of Newcastle. Houses, partially wrecked, or with a few rooms ready for occupancy, have been put in shape by the women who have never faltered in these trying times of distress and are doing their utmost to make the ruins and wrecks of what formerly were fine houses, comfortable and weather proof to furnish shelter for the unfortunate victims of the tornado.

Carpenters and every man who can drive a nail or handle a saw have been at work for the past two days on rebuilding, most of it temporary, of course, on the houses suffering lesser damage, in order that the residents would not have to move out in case of a severe cold spell or another hard rain.

Newcastle, taking the situation in hand, is going ahead calmly, without excitement or frustration, and is preparing to come out of the throes of despair with a more prosperous and more beautiful city even than graced this part of Henry county before the storm, if such an improvement is possible.

J. J. O'Conner of Chicago, director of the central division of the Red Cross society of America, is the chief assistant of John W. Mueller of this city, who is chairman of the

relief committee. Mr. O'Conner, while the Red Cross has not taken over the situation here yet, believing in the ability of the local men to handle the conditions after a system is once established, has brought all the methods, knowledge and generalship of the Red Cross into the city to be placed at the command of the local people to aid in the relief work.

ACTORS TAKE PART

(By United Press.)

Indianapolis, Ind., March 16—Actors appearing in Indianapolis theaters presented a benefit performance in English's theater this afternoon, the proceeds to be used for the tornado sufferers at Newcastle. Managers of all theaters in the city agreed to the performance and leading theatrical men participated.

Elkhart—A religious man is believed to have stolen a crucifix from St. John's Episcopal church in this city.

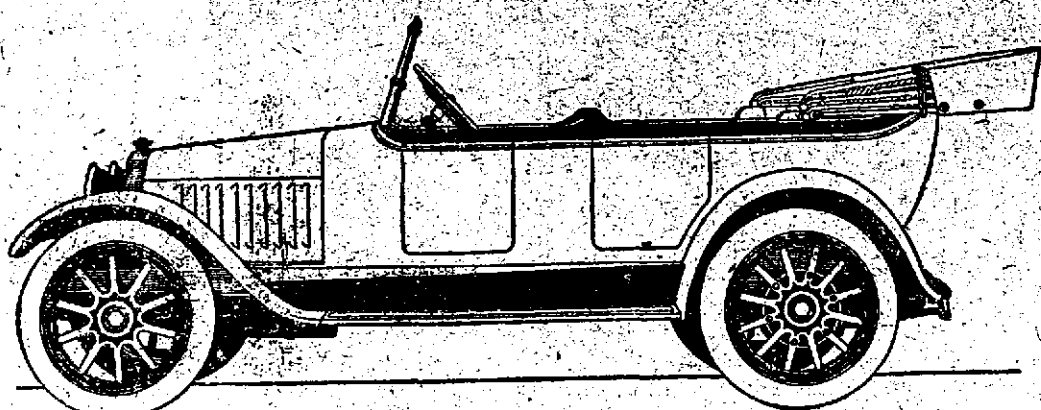

Columbus—An increase in salary of from 7 to 10 per cent has been granted employees of the Interstate Public Service company. The new agreement makes 24 cents an hour the minimum and 34 cents the maximum wage.

Chalmers 7-Passenger Touring Car
Price \$1350 Detroit

Choose a Chalmers as You Do a Watch

Compare two watches. They may look exactly alike. They may be equal in diameter and thickness. They may weigh the same. Perhaps your eye can't distinguish any difference between the gold in the two. One may seem to keep as good time as the other.

Big Differences There

Yet there may be a vast difference. One may be a Tiffany Swiss and the other a non-descript.

If you trust only to an off hand examination you may make a bad mistake in your choice.

True of Automobiles

The same is true of automobiles. Some other car may closely resemble a Chalmers. It may weigh about the same. Have about the same wheel base. The paint may look more or less alike—at first glance.

Yet there may be a vast difference. Differences you can discover only by the closest scrutiny and comparison.

Go Deep

If you are to get the correct idea of the Chalmers, you must go beneath the surface. There the big, important differences lie. Differences in materials. Differences in methods of building. Differences in quality of workmanship.

To look only at the exterior of the Chalmers you wouldn't discover that the gears and shafts of the transmission are of quible nickel steel, case hardened and carefully heat treated.

Solid One-Piece Shaft

You wouldn't discover that the crankshaft is a single sturdy shaft of drop-forged heat-treated carbon steel.

Nor would you discover that the Chalmers pistons are die cast from Lynite, a special aluminum alloy, and weigh only 12½ ounces each.

Deep-Lying Differences

To glance at the body you wouldn't realize that the body frame is built with such great care from select ash. That this is covered by one-piece, welded sheet steel. Nor that the springs in the upholstery are of an extraordinary spring steel. Nor that the frame of the chassis is of carbon steel, 5 inches deep and ½ of an inch thick. With flanges 2½ inches wide. And with three strong cross members and reinforcing plates.

Be Deliberate

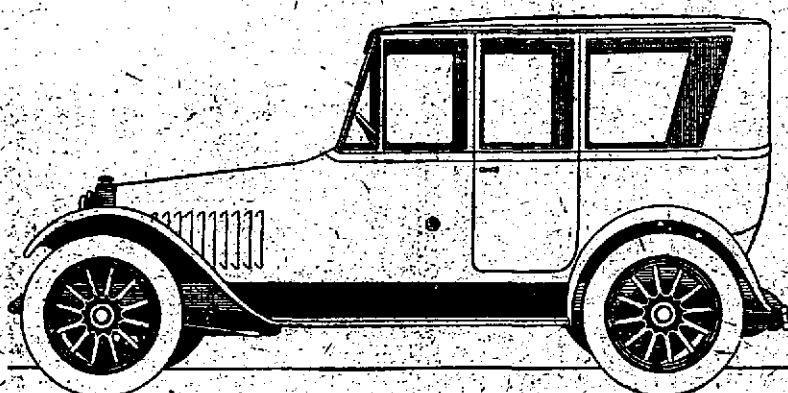

So when you examine the Chalmers don't look hastily. That's unfair to the car and unfair to yourself.

Some things you don't realize when you glance at the 7-passenger Chalmers:

12½-ounce Lynite pistons.
Crankshaft balanced while in motion.
Cylinders and crank case cast in a unit.
Timken axles—built to Chalmers design.
Economical intake manifold.
Chrome nickel driving shaft.
Nickel steel differential gears heat-treated to secure hardness and toughness.
And many other important points of superiority.

All of the above means quality—the kind of quality you need in the car you buy, and the kind of quality you GET in the Chalmers.

14 Cent Corn

Fred Suhre of Columbus grew 530 bushels of shelled corn on five acres, or an average of 106 bushels per acre, at a cost of only 14 cents a bushel, and won the 1916 Corn Championship of Indiana.

SUHRE FARM RESULTS, 1916

Corn fertilized with Swift's Fertilizer, containing ammonia, phosphoric acid and potash, produced an increase per acre over the unfertilized of 19 bu.

Corn fertilized with only acid phosphate produced an increase per acre over the unfertilized of 9 bu.

Additional yield per acre from ammonia 10 bu.

Norris McHenry, 1914 State Champion Corn Grower of Indiana, had the following results on two five-acre plots:

Where Swift's Fertilizer was used, the average yield per acre was 112.1 bu.

Where competitors' fertilizer was used, the average yield per acre was 93.1 bu.

Additional average yield per acre where Swift's Fertilizer was used 19 bu.

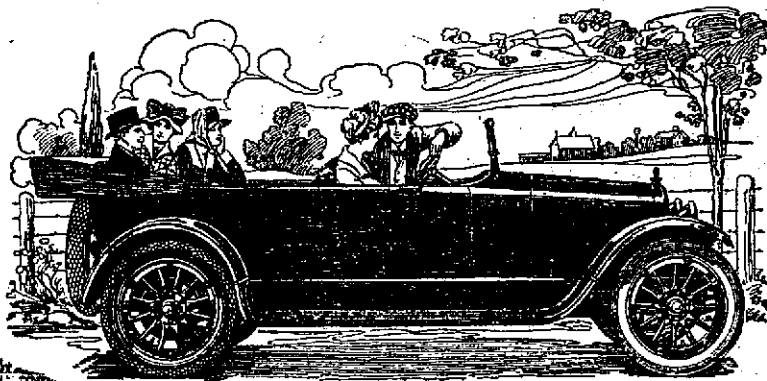

The results from the Suhre and McHenry farms prove that Swift's Fertilizers are the best, and that Swift's Fertilizer containing ammonia is the most profitable.

The Anker-Holth Cream Separator

Is the only Separator on the market that has a SELF-BALANCING BOWL and has no lead or soft solder on the inside in order to perfect a BALANCE, which you will find in other makes of Separators. The bowl is guaranteed to stay in balance the life of the machine. The Bowl is Self-draining which makes it non-freezing in cold weather. It is easy to turn and easy to clean, and can be washed in one-half the time you can wash any other Separator. It has no oil holes or feed cups. It is oiled by an up-to-date oil system; you only put oil in every 60 or 90 days. The ANKER HOLTH will skim closer than any other Separator on the market today, which has been proven by tests with other leading Separators and tested by the Babcock cream tester. It is the only Separator with a dirt chamber that removes all impurities from the whole milk before it enters the discs for cream separation.

Do not be deceived by false statements by people who claim that the cream and milk will remix. I am not hunting for tests, but I am willing to test with any other Separator made in the world today, and let the Babcock tester be the Judge.

The ANKER HOLTH is a high-grade Separator at a Medium Price.

MEN AND BOYS CLOTHING
RUSHVILLE, INDIANA

247 North Main Street

To the Farmers!

Having tried the creamery business through the worst time of the year for cream, I have secured a written lease on the local creamery and am here to stay. I aim to make friends by dealing honestly with the public. That is the only policy that will win.

Do you think it justice to make one suffer for another person's failure? I have risked more this winter to try out the creamery than any farmer will ever risk in selling his cream to me. Some have wondered that we have been able to stay during the winter on such a small amount of cream. "There is a reason." In the first place, I am the only stockholder in the Burchard Creamery Company and I am running it on one-third the expense it cost the stock holding company.

We have worked up a good sweet cream trade and receive a good price for our buttermilk. The men having stock in the old company gave all of their time to other business. They hired men who cared more for themselves than for the success of their employer and ran the

creamery to suit themselves. Their butter was of poor quality and had to be sold mostly to commission houses. That was a sure road to failure.

I have a good butter maker. Ask any storekeeper in Rushville about our butter. We sell it all to stores and restaurants at the top price. The grocery keeper wants us to stay, Don't you?

The history of nine out of ten stockholding creameries is failure, but who ever heard of a creamery run by an individual to fail? Home industries should be supported by home folks, so long as an honest policy governs it. I am getting cream 70 miles away, from my relatives and friends. If they who know me, can trust me, why can't you? Give us a trial and we will not disappoint you. With your cream we can succeed and you will not lose by giving us your support.

For my financial responsibility, I refer you to the Peoples National Bank, where I carry my account.

Yours for success,
Harry Burchard

OLD THEORIES ARE STILL FOLLOWED

State Board of Health Says "Measles Parties," an Ancient Belief, Still Continue

WARNING AGAIN ISSUED

Statement Urges Parents to Take Care to Keep Children From Getting Diseases

(By United Press.)

Indianapolis, Ind., March 16.—Although "measles parties" are considered a thing of the past "this relic of barbaric belief still persists and is one of the most serious and vital obstacles in the way of health officials when they attempt to break up an epidemic of measles, whooping cough or chicken pox," according to a statement issued by the state board of health today.

The statement urges parents to take every care to keep their children from getting "children's" diseases, declaring that they are no more necessary to the growth of a child than a snake bite.

"The usual idea of measles is it is a harmless affliction which every child must have," says the statement. "These 'little' diseases are capable of inflicting serious and permanent damage upon the great vital organs, such as the heart, lungs, kidneys and brain. About 260 children die each year in Indiana from measles alone. We must realize that measles is preventable, that it is not harmless and that it is more dangerous to children than grown-ups."

More than 5,000 cases of measles were reported in Indiana during February, not including ten counties where no reports are yet available. There were thirty-two deaths from the disease in January.

Their work today is practically completed; but how they are going to get back home is a question, unless they care to brave the U-boat danger zone. No direct word from the men and women members of the commission as to their plans have been received.

"SAVE THE BABIES."

These are authentic quotations from the pamphlet on babies by Dr. L. Emmett Holt of Columbia University and Dr. Henry L. K. Shaw of Union University.

Concerning the summer care of breast fed babies. Breast milk is the best milk for the summer. Breast fed babies seldom have severe diarrhea. If they vomit or have acute indigestion it is usually because they have been fed too much or too often, or because the mother is so sick or tired out that her milk is poor. In very hot weather the baby should nurse very often. Feed him only about once every 4 hours, but give him cooled, boiled water freely between the nursings.

Besides the heavy work given it on the many farms, where it has operated during the last two years, men of long experience with tractors have tested the present up-to-date Moline-Universal in a most thorough manner in various sections of the country on different kinds of work.

Built and Backed by \$19,000,000 Concern

When you buy a tractor it is important to know that it is built by a firm of unquestioned experience in farm machinery construction, who are thoroughly responsible, and who stand behind it with a strong guarantee.

We have been building farm machinery for over 50 years; and our \$19,000,000 paid-up capital stands back of our guarantee and is proof that we have given the farmers of America conscientious and satisfactory service.

The Moline-Universal Tractor is an important addition to the unrivalled Moline Line, which includes every tool necessary to prepare the seed bed, plant, cultivate and harvest crops. Any of these tools may be used with the Moline-Universal.

Not An Experiment

Every feature of the Moline-Universal has been given the careful, earnest study of experienced tractor engineers.

No other tractor on the market will do such a great variety of work, nor is as correct in design and construction.

STOMACH UPSET?

Get at the Real Cause—Take Dr. Edwards' Olive Tablets

That's what thousands of stomach sufferers are doing now! Instead of taking tonics, or trying to patch up a poor digestion, they are attacking the real cause of the ailment—clogged liver and disordered bowels.

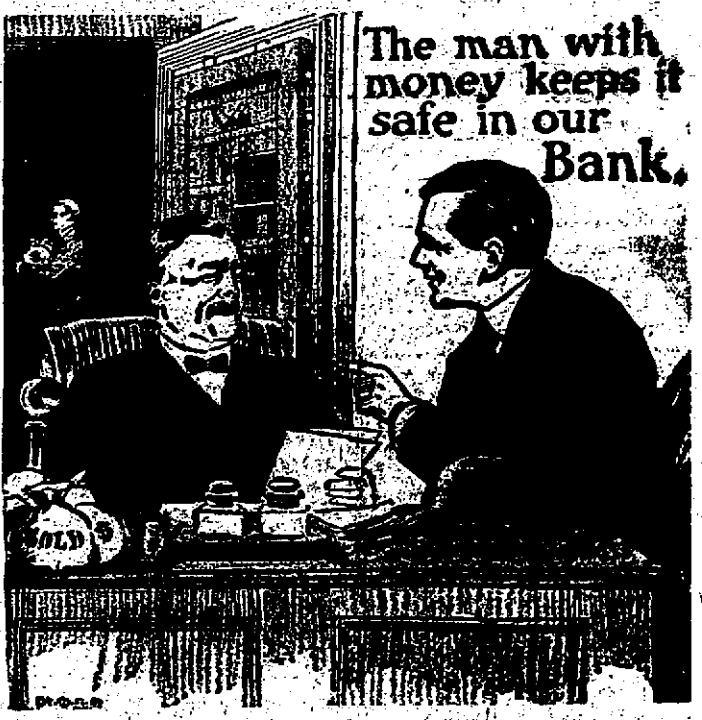

Dr. Edwards' Olive Tablets arouse the liver in a soothing, healing way. When the liver and bowels are performing their natural functions, away goes indigestion and stomach troubles.

If you have a bad taste in your mouth, tongue coated, appetite poor, lazy, don't care feeling, no ambition or energy, troubled with undigested foods, you should take Olive Tablets, the substitute for calomel.

Dr. Edwards' Olive Tablets are a purely vegetable compound mixed with olive oil. You will know them by their olive color. They do the work without griping, cramps or pain.

Take one or two at bedtime for quick relief, so you can eat what you like. At 10c and 25c per box. All druggists.
